CIAE Mission Statement

The Commission of International Adult Education (CIAE) of the American Association for Adult and Continuing Education (AAACE) provides a forum for the discussion of international issues related to adult education and adult education in various countries around to globe. The following purposes summarize the work of the Commission:

- To develop linkages with adult education associations in other countries;
- To encourage exchanges between our association and ones from other countries;
- To invite conference participation and presentations by interested adult educators around the world; and,
- To discuss how adult educators from AAACE and other nations may cooperate on projects of mutual interest and benefit to those we serve.

The Commission holds its annual meeting in conjunction with the AAACE Conference.
