

Interested in a study about **love** and **addiction**?

Want to see your own **brain waves**?

We are looking for participants that are:

- over 21 years old
- vape at least once a day
- in love with someone who does not vape
- have normal vision (glasses or contacts are fine)
- don't have any neurological disorders (e.g. epilepsy)
- don't have any psychiatric disorders (e.g. depression) other than substance use disorder
- don't use medication affecting the brain (e.g. Ritalin)
- willing and able to submit 30 pictures of their beloved

Study takes about 1.5 hours and involves:

- completing some questionnaires
- completing a computer task while your brain waves are being recorded

You will

-earn **\$50**

-get to see your own brain waves
