ERROLL GARNER TO PLAY HERE

By Adell Patton, Jr.

Erroll Garner, one of America’s greatest jazz personalities, will appear in concert in Bell Gymnasium on Sunday, November 9.

The unique pianist and composer, accompanied by a drummer and a blue player, is launching a five-month national-wide tour this fall.

KSC’s lyceum committee has booked the famous keyboardist for a concert here in recognition of his stature as the outstanding contemporary pianist of the jazz genre.

Garnett has won every major prize and award in his field both in America and Europe, including the coveted Grand Prix du Disque.

He has thrilled jam-packed auditoriums and concert halls world over.

Garnett plays by ear and improvises throughout all of his own compositions, although he has had to memorize one of his own recorded hits in order to satisfy public demand that he play them as originally recorded.

Pittsburgh-born, the thirty-five-year-old Garner is a true jazz piano virtuoso.

This present style has made him one of the most original and distinctive musical voices of this century. Among those of Gassner’s today attempt to imitate some of his "Garn残忍nesses."

Among Garner’s more than 700 compositions in ASCAP and the other recent works, "Misty," "Stella," Continued on Page 4

SUMMER SCHOOL SUMMARY

"Summer school isn't no picnic," a snappy, tired, humid student emphatically remarked one hot day last week. "He wasn't kiddin'," he hastened to add.

Precisely beat and intermittent down-pours made summer school a swelling, sloppy affair. But there were numerous bright and happy spots.

For example, there was the gay and sparkling singing of a delightful trio. Lively soprano, Margaret Tynes; tenor Laverne Hutcherson (the "prince" of Harry Belafonte in "Carmen Jones"), and a wise baritone. Alon Avon Long capitalized in summer's abundance, with a wide range of delightful music and wonderful clowning.

All who enjoyed that performance are hoping the magic trio comes back soon.

Then, there was the marvelous music-making of Jackson Robb, the organ wizard, and his troupe, which included Alumnae Robb's charming daughter, Portia.

Jack Robb proved to the pleasure of a heat-beset audience the superiority of a mixture of piano and organ is the best way to "beat the heat."

Campus movies were refreshing to the eyes only because of the selection of movies, but also because of the antics of projectors, Burke's projectors, and the people-eating mosquitoes.

Numerous equipment failures, fuse blow-outs, showers, and armies of mosquitoes didn't keep the grim Mr. Burke from showing a single movie either in the "outside theatre" in the hollow outside Underwood or in the Gym.

All would probably agree that "Three Cats In A Fountain" was the best of the summer fare.

Physics student, Nat Jackson, "Kid" Anderson and company.

"Dreamday," and "Other Voices." Recurring exclusively for Summer Records, he has scored a smash hit with his album "Concert By The Sea." Scheduled to perform on November 9, to go out and witness a dynamic performance by a great artist.
