**St. Louis Psychiatric Rehabilitation Center (SLPRC)** is seeking a masters level social worker (MSW) to work full time with an inpatient adult population. The successful candidate will possess current knowledge of providing clinical casework services to individuals with serious and persistent mental illness. Responsibilities include clinical casework assessments, treatment planning, individual and group psychotherapy, community placement referrals, discharge planning, and aftercare planning. Knowledge and expertise in evidence-based therapeutic practices, such as cognitive behavior therapy and other trauma-focused approaches, is preferred. Experience in an inpatient setting and with a forensic population is a plus. LCSW or LMSW not required but prospective candidates must be prepared to begin seeking licensure upon hire.
