

USING THE TRANSFER GUIDE

The Jefferson College/University of Missouri-St. Louis transfer guide is intended to facilitate a smooth transfer for those students working toward an Associate's degree at Jefferson College who plan to complete a Bachelor's degree at the University of Missouri-St. Louis. This transfer guide was developed based upon requirements in effect at the time of publication. These guidelines are subject to change without notice; therefore, students should meet with their Jefferson College Advisor and UM-St. Louis Transfer Coordinator each semester.

POINTS TO REMEMBER

- Students transferring to UM-St. Louis without an Associate of Arts or Associate of Applied Science degree may have additional courses required before continuing their major course of study at the University level.
- No guide or catalog should be used without additional guidance from a Jefferson College Academic Advisor or UM-St. Louis Transfer Coordinator; students should contact these individuals each semester to determine their course requirements.
- Some courses listed may have prerequisites.
- Courses listed do not necessarily need to be completed in the order presented, but all courses shown should be completed.

The faculty and staff of Jefferson College and the University of Missouri-St. Louis are committed to helping you achieve your academic goals. For additional information, please contact the UM-St. Louis Transfer Coordinator at Jefferson College at 636-797-3000 x243 and/or the appropriate Jefferson College Academic Advising staff. You may contact the UM-St. Louis Admissions Office at (314) 516-5451 or toll-free in Missouri and the Illinois 618 area code at 1-888-GO-2-UMSL (462-8675).

The following is general information of interest and importance to students transferring to UM-St. Louis. Additional material regarding each area will be available from the UM-St. Louis Transfer Coordinator in the Jefferson College Advising Office.

General Undergraduate Admission Requirements

The grade point average (GPA) necessary for a transfer student's admission is 2.0 or above on a 4.0 scale. A student with less than 24 semester hours must meet the Freshman Admission requirements; one with more than 24 semester hours must meet the Transfer Admission requirements.

College of Nursing

Four-year B.S.N.: Freshmen or transfer students with fewer than 24 transferable hours must have a minimum GPA of 2.5/4.0, an ACT of 21 or greater, and have graduated in the upper one-third of their high school class. Students with more than 24 transferable hours must have a minimum GPA of 2.5/4.0.

B.S.N. Completion Program: Students must have: An Associate's Degree or diploma; a minimum GPA of 2.5/4.0 on all transferable college work attempted; at least 30 hours of transferable, non-nursing coursework; and be eligible for licensure in Missouri.

Clinical Major: Spaces for the clinical nursing major are assigned on a competitive and space available basis for each admission period. Applicants must meet the following criteria:\

Minimum 2.5 cum GPA on a 4.0 scale

Completion of all prerequisite courses

Minimum 2.5 cum GPA in Chemistry, Anatomy and Physiology I & II, and Microbiology (first attempt calculated only)

Required science course completed within 10 years prior to enrollment

Accelerated BSN: Admission to the program is highly selective and competitive. For those students with a baccalaureate degree from a regionally accredited college or university, we require minimum 3.0 GPA on a 4.0 scale, completion of all prerequisites with a grade of "C" or above, completion of all general education requirements, and required science courses must be completed within 10 years prior to enrollment. For those students without a baccalaureate degree, we require at least 62 transferable credit hours from a regionally accredited college or university, a minimum 3.2 GPA on a 4.0 scale, completion of all prerequisite courses with a grade of "C" or above, and the required sciences must be completed within 10 years prior to enrollment. Additional application materials are required including a supplemental application and two letters of recommendation.

College of Business Administration

Students must have a minimum 2.0/4.0 GPA for all college-level work attempted. Normally, the following lower division courses (UM-St. Louis designation) are included within the first 60 hours: Computers and Information Systems; Fundamentals of Financial Accounting; Managerial Accounting; Legal Environments of Business; Principles of Microeconomics; and Principles of Macroeconomics.

College of Education

Students who wish to become teachers must be aware of two additional types of admission requirements. One is admission to the School of Education; the other applies to admission to the Teacher Education Program.

College of Education: Students may apply after completing two years of college work. Eligibility is based upon: satisfactory completion of 60 semester hours with a GPA of at least 2.0/4.0; no more than 9 hours of general education requirement unfulfilled.

Teacher Education Program: Eligibility is based upon: score of 20 or above on ACT (18 on ACT before 10/89) or 800 (combined) on SAT; 235 in all areas of the C Base Test; and cumulative GPA of 2.5/4.0 (transfer and UM-St. Louis).

Additionally, grades of C or better are required in all professional education courses. Completion of 90 credit hours with a GPA of 2.5/4.0 is required before a student is eligible to student teach.

UM-St. Louis\Washington University Joint Undergraduate Engineering Program

Admission to the engineering program is granted jointly by the University of Missouri-St. Louis and Washington University. Normally, admission is granted to persons who have completed the pre-engineering program with a minimum GPA of 2.75/4.0 over all mathematics, chemistry, physics, and introductory engineering courses (statics, dynamics).

The program now offers a Bachelor of Science degree in Civil, Mechanical, and Electrical Engineering, as well as a minor in Environmental Engineering Science. Students who enter the program will take about one-half of the coursework required for their engineering degrees -- mathematics, physics, chemistry, humanities, social sciences, and some elementary engineering subjects -- on the Jefferson College campus. The remaining half of the degree program, consisting of 63 - 69 semester hours in upper-level engineering courses and laboratories, is offered in the evening on the campus of Washington University and taught by Washington University engineering faculty.
