Note that about 10 hours of work per week for one semester (15 weeks) = 1 credit hour.

Project Summary

On a separate page or on the back of this form please write a brief description of the project or work that will be assigned to the intern and briefly describe any biological or chemical techniques or procedures that the student will use.

Supervisor's Agreement

I agree to supervise this student as an intern for the project described here and will provide an evaluation of the student's performance at the end of the internship period to the course instructor. I understand that this internship is for college credit and the student will be required to submit a paper describing the activities in the internship to the course instructor at the end of the internship.

Signature of Supervisor _____ Date _____

Note: This form must be returned to the UMSL instructor of the internship before a student can register for the internship.
