

SEMINARS FOR THE REST OF THIS SEMESTER ARE CANCELLED AND MAY BE RESCHEDULED

The Monday Chemistry Colloquium presentations will be held on Mondays at 4:00 - 4:50 pm in **Benton Hall (BH) 103**. Seminars are attended by faculty, postdocs, and graduate students from all divisions, as well as undergraduate chemistry majors typically in their final semester.

Spring 2020

Date	Speaker	Host
Jan 27	Jeff Evers (UMSL Environmental Health and Safety), "Waste is a terrible Thing to Mind"	Stine
b 3	Rachel Henken (UMSL Environmental Health and Safety) "No Safety, Know Pain".	Stine
Feb 10	Jim Grant (retired from Industry & Government; an UMSL Chemistry MS 1981 graduate and a Pierre Laclede Society member); "Careers in Chemistry:Have you considered Environmental, Health and Safety Fields?"	Stine
Feb 17	Dr. Kevin Tucker (Department of Chemistry, Southern Illinois University Edwardsville), "Research at the Nexus of Food, Energy, and Water"	O'Brien
Feb 24	Dr. Julio M. D'Arcy (Department of Chemistry, Washington University), "Conjugated Polymers for Nanoscience and Energy Storage".	O'Brien
Mar 2	Dr. Robert E. Paton (Colorado State University), "Computer Assisted Synthesis - New Tools to Guide Reaction Optimization and Discovery"	Bauer
Mar 9	Dr. David W. MacMillan (Department of Chemistry, Princeton University), "New Photoredox Reactions of Value to Chemists and Biologists" CANCELLED BY SPEAKER	CSGA
Mar 16	Dr. Harshita Kumari (James Winkle College of Pharmacy, University of Cincinnati, Ohio). "Investigating self-assembly in solution."	Gokel
Mar 23	Spring Break & ACS Spring National Meeting, Philadelphia	
Mar 30	Dr. Gaya Amarasinghe (Biochemistry and Molecular Biophysics, Washington University School of Medicine) "Viral-immune evasion mechanisms".	Nichols
Apr 6	Dr. Joseph B. Lambert (Trinity University, TX), "Analyzing Culture by NMR Spectroscopy: Amber, the Organic Gemstone"	Wilkling
Apr 13		
Apr 20	23 rd Annual Robert W. Murray Lecture: Dr. Omar M. Yaghi (<i>James and Neeltje Tretter Professor of Chemistry</i> and Co-Director of the Kavli Energy NanoSciences Institute at the University of California-Berkeley). "Harvesting Water from Desert Air"	Bauer
Apr 27	Dr. Shin Moteki (Chemistry & Biochemistry, UM-Kansas City), "Chirality Directed Self-Assembly of Dual Catalytic Janus Dendrimers and Application Toward Orthogonal Tandem Catalysis"	Stine

Date	Speaker	Host
May 4	33 rd Annual Distinguished Alumni Lecture: <u>Dr. Elizabeth (Betsy) Keath</u> (Associate Professor of Medicine, Research Development Program Director in the Institute of Clinical and Translational Science, Washington University School of Medicine; UMSL BA 1978). "When You Come to a Fork in the Road, Take It (Reflections of an UMSL Chemistry Graduate)	Wiling
