# Older Adult Home Repair Survey

### Partner Organizations

Dear Older Adult Homeowner,

The University of Missouri-St. Louis (UMSL) is partnering with several community organizations to help older adults keep their homes in good repair. To do that, we need to know what repairs are needed. That's where you can help!

You are one of 2,500 City of St. Louis older adult homeowners chosen at random to represent all older adult homeowners. You will soon be mailed a questionnaire from the UMSL Community Innovation and Action Center.

Please complete the questionnaire and return it in the provided post-paid envelope. Taking six to ten minutes to report your home repair needs can make all of our neighborhoods even better.

*Questions? Contact UMSL Professor Todd Swanstrom (314-516-5259) or by e-mail at [swanstromt@umsl.edu](mailto:swanstromt@umsl.edu).*
