

## **New Program Proposal**

### **I-Transfer General Education Block**

Students fulfilling the general education requirements outlined by the Illinois Articulation Initiative (IAI) and certified by the sending institution will have met the lower division general education requirements at UMSL following the completion of the American History and Government course required by the state of Missouri. Courses listed under American History and Government will meet that requirement.

**Justification for request:**

I-Transfer is the State of Illinois' General Education transfer block. We would like to accept this block to better recruit students from Illinois. I-Transfer does not require an American History and Government course, a requirement for all degrees awarded in the State of Missouri.
