

Mathematics, Minor

Minor in Mathematics

The requirements for the minor are:

MATH 1800	Analytic Geometry and Calculus I	5
MATH 1900	Analytic Geometry and Calculus II	5
MATH 2000	Analytic Geometry and Calculus III	5
Select at least two additional three-hour mathematics courses numbered above 2400 2000. ¹		6
Total Hours		21

¹ ~~excluding~~ MATH 2510, MATH 3000 and MATH 3520 may not count toward the minor.

A minimum of two mathematics courses numbered 2000 or above must be taken in residence in the Department of Mathematics and ~~Computer Science~~ Statistics at UMSL.

Justification for request:

This proposal allows Math 2020 to be counted towards the minor and should encourage more engineering students and CS majors to pursue the minor. Also, Math 3000 does not count toward the minor (given the last sentence in Math 3000's course description), and this should be reflected in the minor requirements.
