Sign-offs from other departments affected by this proposal

Department	Contact Person	Phone #	Objections
S003100	Cezary Janikow		No
Rationale	The addition of the word “Technology” will underscore the STEM focus of the degree and enable the department to seek grants for STEM scholarships. The addition of IS 3842 to the required courses of the degree will enable students to have a firm grounding in data networks and cybersecurity. The students will take IS 3842 as their Global Awareness class, thus the 120-credit hours for the degree will remain unchanged.
