

September 4, 2007

The first *SGA meeting* was last Friday, next is September 14th at 12:30.

Homecoming is October 13th at the Chase Park Plaza

Shuttles: We are working with the Center for Transportation Studies to do a study of the current routes and what technologies are being used with the UM-St. Louis shuttle services. The study will be complete at the end of the semester.

University of Missouri – Columbia: SGA discussed the Columbia name change and the general feeling was that the change would be detrimental to UM-St. Louis. Some feel that the St. Louis campus would be perceived as a satellite campus of the University of Missouri. Still, a few believed that it may mean more money for the system as a whole.

Role Call vote for the Student Curator: ISC is pursuing a role call vote for the student curator. A role call vote would take place as the Curators voted on an item the Board secretary would say the name of the student curator and he or she would voice a yes or no. The vote would not count however it would be recorded in the minutes of the meeting.
