

# MyView Update

Some of the ways the new student information system benefits the campus:

- 🔥 MyView is web based so there is no need to use Host on Demand to access the data system.
- 🔥 You will have a new login page (see below) and will use your SSOID and password to login.
- 🔥 Navigation will change (training will be provided to learn how to access the data you need).
- 🔥 The pages you use the most can be placed in “My Favorites.”
- 🔥 Access to application data is much easier and faster using the Application Inquiry page (back page).
- 🔥 More automated method of tracking the communications made with students.
- 🔥 Goal is to provide one data system to accommodate each department’s needs.
- 🔥 Provide more self-help to students online (students can register 24/7, access financial aid awards, and view billing activity).
- 🔥 Faculty will be able to view their courses, access rosters, grades, advisee information, and download class rosters.
