

**Student Government Association
University Assembly Report for
November 13, 2007**

Homecoming this year was one of the largest ever with over 880 people in attendance. The dance was sold out two weeks before the Saturday of the event. We are currently looking for a larger venue for next year.

The past weekend SGA attended the *Missouri Higher Education Consortium*. It was the first meeting in years of the 13 Missouri public universities' student governments. We discussed issues that effected students such as SB 389 and the upcoming Missouri General Assembly.

Student Fees were introduced to the SGA Assembly this past Friday. We currently have a commit looking at them in depth and the fees, along with supplemental fees, will be voted on at our last meeting of the year.

SGA's Green Committee has met 4 times this semester and has started work with the Green Campus Advisory Group. This is the first time these groups have worked together and we are excited to see what results will come from their collaboration.

Wayne Watch: This is something that SGA started at the beginning of the semester and the students have really been excited about it. Every so often SGA will take a shirt that was submitted by a student organization that put it on the statue of Wayne Good. The shirt is usually for an upcoming event that the student organization is putting on. We also take pictures of the statue with the tee shirts and put them online at sga.umsl.edu if anyone would ever like to see them.

The *last SGA meeting* of the year will take place December 7th at 12:30 in the SGA Chambers.
