Stated below are major requirements. Note the requirements differ based on degree, and BS in Computing Technology requires two courses in INF SYS. In addition to stated required courses, students must also take five additional CMP SCI electives 3000 and above (BS in Computing Technology can take up to two electives in INF SYS). All these courses must be passed with at least C- (unless noted otherwise). Students must also pass ENGL 3130. All students must also satisfy general UMSL requirements for a BS degree. Before enrolling in a course, you must first complete each of its prerequisite courses. Some waivers are possible based on experience. Please plan first courses that are required for other courses.

NOTE: Computing Technology pending

Students with an introductory programming background, but without 1250 transferred in, can request to start with 2250. They will have 1250 credited upon successful completion of 2250 and they can also request to register for 2700 concurrently with 2250.

1250 and 2250 can be taken in one semester as a combo course (one after another in half semesters).
