

Biology BA

The Bachelor of Arts degree in Biology is designed to prepare students for basic technical positions and graduate studies in the life sciences. Candidates for the degree have the same core courses and general education requirements as those seeking the Bachelor of Arts degree but with less emphasis on science electives and more emphasis on the liberal arts.

Career Outlook

Students with a BA degree in biology have diverse career opportunities. Graduates are often hired by local companies specializing in biotechnology, conservation, and basic science research. Many graduates pursue diverse professional degrees, including dentistry, law, medicine, optometry, pharmacy, and podiatry. Numerous graduates also reach advanced research positions by undertaking additional scientific training in masters and doctoral programs in the biological sciences.

Future Career Options

- Conservation Biologist
- Environmental Educator
- Health Sciences Professional
- Laboratory or Field Research Assistant/Scientist
- Medical and Technical Sales/Support Representative
- Professional Health Careers: Dentist, Physical Therapist, Physician, Physician's Assistant, Veterinarian
- Regulatory/Government Affairs Specialist

Skills Developed By Degree Completion

- Understand content areas of anatomy, botany, cell and molecular biology, ecology, evolutionary biology, microbiology, physiology, and zoology
- Perform laboratory experiments
- Formulate hypotheses, design experiments, and evaluate data
- Identify, create, and critically evaluate information
- Present scientific concepts and information
- Objectively evaluate and report data
- Demonstrate basic language proficiency in a language in addition to English

Successful alumni have gone on to fulfill many of the opportunities above. Additional possibilities are taken from the Bureau of Labor Statistics. Contact an advisor to discuss additional future career options.

This is a sample academic map for the courses to take each academic semester/session. This map is not a substitute for academic advisement. Contact your advisor when making final selections.

UNIVERSITY STUDIES

University studies is required for all first-year students and those with less than 24 credit hours.

MILESTONE COURSES

Milestone courses should be taken in the order shown to ensure you stay on a timely and accurate path toward graduation.

SUMMER AND INTERSESSION COURSES

Don't forget that summers and winter breaks are a way to fast-track your route to degree completion – and lighten your load during fall and spring!
