# Business Administration BS

## Finance Emphasis

*In today's data-driven world, the field of finance is going through substantial and transformative changes in the delivery of financial services. Modern finance tools including fintech, blockchain, computational finance, artificial intelligence, robo advisors and algorithmic trading are ubiquitous throughout the financial services industry affecting decisions in investments, portfolio management, trust services and securities trading. Industry participants including banks, brokerage houses, real estate trusts, insurance companies, hedge funds, mutual funds, trading exchanges and other corporations require the latest finance knowledge.*

### Career Outlook

The core business classes include financial and managerial accounting, legal environment of business, information systems concepts, business analytics and statistics, supply chain management, financial management, management and organizational behavior, marketing and strategic management.

Graduates of the BSBA, Finance Emphasis will be prepared to enter this dynamic and exciting workforce and succeed locally and globally across various industries. The finance curriculum prepares you for careers in corporate financial management and the financial services industry.
