

BUSINESS & GEOPOLITICS

Majors included: Business, Communication, Economics, International Relations, Political Science, & Public Policy Administration

The Business & Geopolitics Pathway is intended for students that are intrigued by markets, trade, and political issues. Students pursuing this route may have interests in domestic and international economic developments, the role that corporations and politics play a role in global issues, as well as how non-profit agencies help bring assistance those in need. Students can expect to learn how the world operates as a function of commerce and political affairs.

1
