

THE INTERCONNECTED WORLD

Majors included: Languages, International Relations, & Sociology

The Interconnected World Pathway is intended for students that have a desire to study global issues and concepts. Students pursuing this path understand that the world in which live has become 'smaller' due to technological innovation and we should be learning more about societies and cultures both near and far. While not directly listed, students that are possibly interested in a major in International Business would also benefit from this Pathway.

1
