- ✓ This plan was designed for students who plan to apply to occupational therapy school after their Junior (third) year of college with plans to begin dental school right after graduation. This plan is for a first-time college student. For students transferring credits, plans may differ.
- ✓ If you are not a psychology major, you can meet with your major advisor to create a specific plan for your degree. Please keep in mind the activities and timeline for GRE preparation and testing. Depending on when you are applying, all pre-reqs should be completed before taking the exam.
- ✓ Please keep in mind that each professional school may have their own set up specific requirements. You should contact the school of your choice to get a list of requirements that are needed for admission into their program.

^{*}Required for Occupational Therapy school

^{**}Recommended courses to take to support your application and admission
