

UNIVERSITY OF MISSOURI - ST. LOUIS

Faculty Position Number Request Form

Instructions: A department authorized to hire or rehire an academic position must complete this form and return the information to Human Resources **by e-mail**, no later than the first business day of the month in which the position is intended to be filled/begin working. The department will be notified by e-mail regarding the assignment of the *Position Number* within two business days on average. The newly assigned position number should be included on any subsequent related PAFs and when/if the person in this position number is replaced.

Note: With the implementation of Time & Labor, the use of *Position Numbers* has become a critical element of the employment process and important in ensuring that faculty and staff are **A) entered into payroll** and **B) paid in a timely manner**. A *Position Number* is a number assigned to a job instance – it stays with the position to which it was originally assigned. The number is not related to the *person* in that position – it is not an Employment ID, a Job Code, or a Job ID. *Position Numbers* will be necessary for all academic employees hired or rehired into *different* positions (including concurrent appointments) except for those noted below.*
