Gateway Writing Project Institute 2024 – 2025 Programming *Leadership in the Teaching of Writing*

Why the Writing Institute?

The Gateway Writing Project Writing Institute is an intensive learning opportunity. Grounded in classroom experience and steeped in university research, the Institute is a transformative learning experience for teachers of all subjects and grade levels who want students to communicate their learning through writing.

Whether you teach elementary students, science or history or language arts, writing is a central piece of your classroom. Unlike traditional coursework, the Writing Institute is an immersion into writing. Just as a professional musician plays, as a doctor practices, so too the teacher of writing writes.

The Writing Institute is designed to engage teachers in the pedagogy and the practice of writing. It is a process, and living that process creates new, revitalized teaching. The pedagogy behind writing as a thinking tool, a communication craft, and an art broadens and deepens teachers' understanding of instructional practice. It is through writing that new possibilities for the classroom emerge.
