Henry G. Alspers. Santa Fe, Jan 1. 1846

June 13. 1846. The company of Capt. Fischer to which I belong as corporal is mustered this day by General Milburn and enlisted in the service of the U.S. We are going to be styled Flying Artillery. Officers: Capt. Wm. Fischer. Lieutenant's: Garnier. Kribben. Hassendeubel. Johanning. Non comm. Off.: Seiffarth. Weber. Genz. De Marle. Hartz. Schultheiss. Oerhoff. Coopers. The whole comp. consists of 118 men, drivers included who received \$7.00 per month. June 17 we leave St. Louis Park with our horses & equipment for the U.S. General Milburn, to go in her to Fort Leavenworth, where we arrive in the evening of June 21. and are mustered into service by Col. Kearney, our horses are likewise June 23 mustered and assessed. We receive here our allowance for one year clothing, amounting to 42 dollars per head, and plenty bread & pork but little bread. Some great preparations for starting but we consider ourselves at least ready June 30 and make a start, cannons ahead, baggage & ammunition wagons behind. The road is getting very bad & horse left with the heavy wagons cannot keep up with the Capt. & his men, gone ahead with the pieces. Col. Kearney, they suffer therefore a great deal for some days out of want of provisions, which are with the party, the whom I belong. At last they had made a halt & we overtake them on the other side of the Kansas river, where we have to cross on a bad ferry. The Kansas is a beautiful stream and the country that far (Miles) is charming, hills & valleys, timber & prairies, delightful walks.

July 5. We leave to a place called "Hundred Den" spring, grove & creek. Heavy work always with the cannon & baggage, wagons in crossing bad roads.

July 6. At Council Grove we pass & go 18 miles further to Diamond Spring, a real

place of a spring in a fine meadow land. But now comes the desert

July 9. we make 8 miles & dreary ones. No wood or water. In the afternoon rain and thunderstorm, are in camp wet all over. Major Clark arrives to night.

July 10. We rest rainy morning and so the next night, when I am on guard.

12 we come to the Little Arkansas, having passed through a wood & waterless prairie, very hot all day & every day. 13 to 14. Long marches, no water

July 15. On the Arkansas, gray doaters. Little timber. 16. Made 34 miles without water.

July 17. Rest day on Pawnee fork. July 18. eighteen miles to the Arkansas. Last

two nights mighty cold. 19. On the Arkansas again 205 miles from Bent's fort.

Cold nights, warm days, hot winds. Plenty buffalo meat all through last

week. We have soaked our blankets for some time entirely on buffalo dung.

On the 20th of July I loose my watch, a repeater, and one 11 Dollars, perhaps \$100.00.

July 21. Short march. The colonel, who had said he hindred days, being still present no again. Thunderstorm to night, & on guard. Stampede of the horses makes

great confusion & disturbance in our camp. I am made sergeant of the guard.

July 22-23-24. 25. Long marches alongside of the Arkansas, hot wind & little

water. We arrive 3 miles from Bent's fort on the 29th of July. For some day

more buffaloes. No grass, no flowers, plenty sand. Lay up one day

Aug 31, 1846 We cross the Arkansas at Fort Bent noon on or on the
next morning at 3 o'clock through a more than Arabian desert, making
45 miles, where we find a little water but no grass. That breaks
our horses down.
Aug 4. Monotonous, sandy country. Aug. 5. My horse is gone but I get it back next day.
Aug 7. Find monstrosities. Capt. Fischer climbs up to the highest of
them & is lost for some time, but luckily returns at 3 o'clock with the rest.
He had been gone from 9 in the morning. We get to the Pecos River.
a fine little water. Aug. 8. Encampments to pass with our teams.
Last night had work at the canvas. On the 9th 6 days from Fort Bent to rest.
Aug 10. 11 & 12. Long marches, miserable grass. Death, disease and mortality go on.
Aug 13. On the Mora river & shore village. Indians made out of dirt. Indians
friendly, men small, women pretty. Aug 14. At Los Pinos. We buy much
bread, having starved for a long time, & having no bread for a whole day
than we could eat at once; no coffee & sugar & all for some time. Half the day
most all the way. Upper Mora. Aug 15, 16, 17 The country
looks some better, plenty fine fir trees. We get safety through
the Canine pappos. The enemy has fled before us & we arrive at
Santa Fe on the 18th of Aug. fire off 14 shot with our big guns
as a salute & I salt the rest day.
Aug 19 with a detachment of our men to the grazing ground at Gallijo.
Santa Fe is the most miserable looking place I ever saw in my life.
Nothing but old mud holes, what they call houses, inside this town,
they look a little better, but no grapes no trees in the neighborhood.
We arrive at Gallijo, 26 miles from Santa Fe on the
20th of Aug. take possession of 2 cannons (one of them made at
Barcelona 1768) & one mortar, which the enemy under Armijo
had left here with plenty of ammunition. It flying from us
they could not bring them farther. Armijo cannot be found anywhere.
I remain at Gallijo till the 1st of Sept to go back to Santa Fe and
Sept. 2. I start again with a detachment under Capt. Fischer's command
with 4 cannons and about 80 men under the now General Kearney
for Albuquerque & Tomae. The first day we have bad roads,
bad water & bad grass but next day and after it improves
a great deal & we pass through a fertile country with plenty
peaches & more grapes, take possession of San Domingo, San
Felipe, La Chera, Albuquerque, Valencia, Tomae &c.
and some other places but we do not find Governor Armijo
who fled before us, return & arrive
Sept 10 in Santa Fe again.

From Sept 17 to Sept 21 Capt. Fischer & 80 men are sent to the
Apaches Indians to bring them to a treaty. He succeeds.
On the 20th Capt. Fisher is sent out with some men to see if
a number of wagons, lately come in have any ammunition loaded.
In 3 days he returns, having found nothing. I loose on the
20th my saddle, my 2 blankets, bridle, leather cap, leather, pistol belt.
Oct 2. Major Doniphan's Battalion arrive to day from Fort Leavenworth.
Lt. Price's Regiment arrives afterward, when General Kearney
has left us already for California, leaving Charles Bent
in Santa Fe as Governor & Col. Doniphan as commander of the
military forces. The Mexicans lately arrived start for California.
Col. Doniphan makes great preparations to start for Chihuahua,
and gets off at last, leaving the command of Santa Fe now in the
hands of Col. Price. So the month of October passes away.
And now comes the winter December and with it plenty, rumors
of counterrevolutionaries. The Mexicans are said to intend to
Kill all the officers, spike the cannons & drive us away
on the 18th or 19th. A picket guard besides the usual
guard of 150 men is ordered out. We receive cartridges, but
the revolution does not break out.
Dec 2^d D. The conspiracy is discovered. Five of the rebels
Mexicans put in prison, Harris, Price etc.
Dec 3^d D. We celebrate Christmas at Capt. Fischer's quarters
in style. A general contribution enables us to do the thing up brown.
Major Clark, Adj. Walker, Capt. Wrightman, Blumer our guests.
8 gallons (32 dollars) of whiskey made by our unit, plenty of cakes
& pies, hams, beef, sheep & pork etc. Songs mixed with Yankee
singing our arms hanging at the walls, the Major gives us the words,
"Always ready". Raise enough in few words.
Dec 5^d D. Lent at the Capt. and march through the streets with much
1847.
January 1. I am invited to the officers, where we spent a fine
evening till 10 o'clock a.m. Music at 12, dancing
in the Drill in the snow, singing etc.
The 5th January we leave again.

1847

January

1st Our Company marches or rather parades through the streets of Santa Fe, congratulating the drift militia of gaunties. We have besides the bag less a man named of Moses, who plays the Clarinetto. We learn to day, that Col. Doniphan & his men have on the 24th fought the Mexicans at Brazito some 20 miles this side of El Pafio. Genl. Crittenden & 100 of our men are with him likewise under command of Col. Mitchell, who was sent with about 100 men after Col. Doniphan to join him. The enemy fled after 24 minutes. The Mexicans are said to have lost something like 30 men. None of our boys wounded or killed.

Major Clark begins now to make preparations to attack for El Pafio, to join Doniphan by his order with 4 Cannons & 2 howitzers, but it takes him a long time till he gets ready. At last his men under Capt. Wrightman start January the 8th & then his standard bearers with his two flags start and at last a provost after he himself.

All is now quiet in Santa Fe, Governor Bent is gone to see his wife in Taos valley and on a sudden the news awake us from our slumber that another revolution is intended and Governor Bent & a good many Americans in Taos are on the 18th ~~opposing~~ murdered in their houses.

The news are found to be but too true. We bring 6 Cannons up to the post we had been building over since we came to Santa Fe, save a detachment of men there to guard it and Col. Price with about 300 men start the next day for Taos.

This is

January 23. Belong to the few lucky ones, who are sent out from our Company with 4 howitzers and 2 3 Dyer & Lewis carbines. But we are by 10 men incl. Non-com. offrs. and drivers. I am sorry. The names of our command are: Buel, Felt, Lupton, Culver, Hart, Elzad Helmholz, James, Prof. Foster, Dr. Meyer, Lt. Major Murphy, Malone, Miller, Klemens, Schaefer, Scherzer, Vogel. The P. Co. Murphy.

As we start after 2 p. M. we make only 10 miles to day through a broken, sandy country, small cedar bushes. Came in camp at 4 o'clock with the amm. wagons.

January 24. We start at 8 in the morning, worse looking country than yesterday, all sand. It looks like it is rain in the P. Co. Murphy's list. When we come near Cañada, about 12 miles from our last camp, our espes. return with the gladdening news, that the enemy is posted in & round Cañada to stop our march. All buildings are thrown down; all blankets taken from the amm. wagons and on we go; cross a small creek near the place. The infantry and mounted men are posted under the bank of the creek, and we with our 4 howitzers approach the city, 10 men without a pop gun. Within 300 steps we commence our fire, & keep it up for 2 hours always approaching nearer the place till we get within 150 steps of the same. Sometimes we have to cease firing by order of Col. Price. And some 20 men of the P. Co. stand there exposed to the fire of about 2000 Mexicans & Indians from town & the surrounding hills. The 4 of us are wounded, namely Coopers in the leg, Murphy the same, Culmen in the arm & Meyer (P. Co.) in the arm. The amm. wagon & others are at last come up (over teams) & Capt. Agnew is allowed to take a couple of buildings, from where a good deal firing comes. He losses tonaw by some of Smith in this attack. Soon after as it is getting late an attack is made on the city & surrounded hills and the enemy is driven away & flies over the mountains. We loose another man of the P. Co. by some of Graham & Lieut. Irving is wounded in the leg. The enemy states that his loss was 36 killed & 50 wounded, of whom a good many were dead. The battle lasted from 2 o'clock till 6 pm. Mr. G. The enemy show themselves on the hills round the city great numbers, but as soon as our boys turn out, they fly in all directions. We are comfortably quartered in the prettiest houses. Small places are close together here: Cañada, Santa Cruz & Santa Clara.

January 27. We send Lieut. Irving, Culmann, Schreyer & Murphy to Santa Fe and then take up our march again at 9½ o'clock A.M. Time was along the Rio Grande. Many farms & villages all the way along. In the first Indian Pueblo village we return to 45 of them & find delivered themselves up to us at Cajada & given up their arms, their rifles and bows & arrows though guns without. The white flag is hoisted in every village. We stop at Arrialeta and stay here next day, break down a house of one of the Arrialetas and those dragoons under Capt. Burquin join us here on the 28th. Likewise a band of men with 6 of our men: Dr. Charles G. Corcoran, Dr. C. Herzer, John Wapping. On the 29th we go to La Goya. I stay here with a man by name of Don Pedro Garcia, a friendly fellow. As we learn the enemy is gathering at El Embudo 3 days. in C. of Camp Kuyugus diamond Dragoons leave up here to meet them. In half an hour the enemy is routed Jan. 30. And we start. The first part of the road is pretty good, but then we get into the mountains and plenty of snow. No roads. Heavy falling, snow and animals to haul the amm. & baggage wagons up the moutain through the snow. We have to encamp on top of a long hill in the snow for the night, feed & boots all wet & cold. Only 2 blankets along. Not much sleep to be sure. Early Jan. 31. at 6½ we start arrive at Grampas at 10 o'clock, where we find the 3 dragoons. That left us at La Goya. More white flags but in general half the inhabitants have left their homes. At 2 p.m. we start go about 5 miles. have comfortable quarters, eat pork, drink whisky & sing till late hours. The snow is forgotten.

February 1. Off at 8 A.M. But know for mountains and white snow getting 3 feet deep & then to wade through it usually up the hill for a whole day helping to push and pull besides & then being worned like me. I believe we get about 2000 feet high, stop in the deep snow at night and have the pleasure to be covered with snow the next night. Great cooking with snow, thawed at the fire. We only made 7 miles. The next morning the dragoons, the boys, as well as I the cold & snow began early to amuse themselves, making the voices of all kind of birds & animals. Likewise a man of Comp. A. Capt. J. G. is found dead today in a baggage wagon very likely frozen to death. He had been a little drunk,

now all day, frequently not knowing the road, but mostly goes down the hill. At 5 p.m. we get to the first village called Raizo in Taos valley; stay here till next morning Feb 3 march on without provision & what is worse without amm. wagons being come up to San Fernando 4 miles off, stay about an hour here and then go to Pueblo de San Hieronymo, the stronghold of the Pueblo Indians, 3 miles farther. In the foreground is a church and some smaller buildings and in the rear to the right and left two large buildings 7 & 8 stories high, build of adobe & entrance from above. A wall surrounds the whole place and a creek runs through it. We fire uselessly our amm. away this afternoon and as the amm. wagons don't come up with fresh supplies we have to retire to San Fernando. The Indians singing & shouting like they did at Canada, hollowing like devils. The next morning Feb 4. We commence our attack again. We have now plenty of amm., but still our shells are all thrown away at Rocton. Then we take the church which served as a fortification for the enemy, having 3 feet thick walls & a roof to the flat roof of the same. Late toward dark a general attack is made on the city & some more buildings taken, a good many of the enemy taking to the moutains, where they loose 52 killed by our mounted men; others retreat to their strong buildings. We encamps in their houses, post a strong guard and as I lay down the enemy is firing garrisonarily out of their buildings. After a hard a tiresome day asleep well till next morning.

Feb 5. The enemy, women & children foremost run on creeping along, carrying white flags & images of their saints in their hands begging for pardon. It is granted to them. We look in the Pueblo, engage about 13 men, among whom were Capt. Burquin & Lt. Leake. Van Valkenberg and had beside 45 wounded. The enemy lost 1280 killed number of wounded large but not exactly known.

In this last engagement 3 of ourish boys were likewise wounded. Rotn. Fort Beloford.

In the mean time on the 25th Capt. Headley had beat the enemy at Taos, as they had killed some Ameri. These had risen in insurrection; they lost 25 killed & taken prisoners. Our loss Capt. Headley killed 2 women. Then Capt. Brown, ordered to succeed Capt. Headley was sent out with 1 piece of cannon and some of our soldiers seized on the 1st of Feb. the upper & lower Moro ^{hills}, the insurgents having fled to the mountains.

We stay in Pueblo de Taos till noon Feb. 5. & when we start it is hard to hear the lamenting of the Indian women & children all over town over their numerous dead ones. They commence getting them together; but they will have enough to do for a week. Retained to Taos the trial of the insurgents wonnares and on the 6th of Febr. just before we start Pablo Montajon the main leader & general of the insurrection is hung on the public place in San Fernando. - Capt. Aguirre Murphys & Burgwin's camps stay behind with one hundred. The wounded likewise are left behind. Gov. Beck, Capt. Burgwin & Lee's bodies are taken away to be interred directly at Santa Fe.

We make now long marches so as to be obliged to stay on the snowy mountains another day or two, the snow now firm. At the 9th we are over the mountains again and with our old friend Pablo Garcia de la Goya. The last 2 days we experienced the cold & wind all day & night in our farce.

10 Febr. We reach Canada to day at an early hour and as the road is now always good we reach to 11 Febr. in the afternoon our old Santa Fe once more. I am always lucky. Besides being wounded I have lost on this expedition 1st at Canada my new gray coat & at Pueblo de Taos my black coat, they being taken from the

amm. waggon for the use of the wounded.

Gov. Beck, Capt. Burgwin & Lee are with great honor interred near the fort at Santa Fe. Feb. 13. Melvin in general pretty well during this expedition. He says, either & molasses of the insurgents. Since I am back my wound is a good deal inflamed, but with good care it will soon be better.

The weather is getting warmer now, and I wish you it will remain so, for we have had a colder winter than I ever found in St. Louis, the ground always of ice about 3 months being frozen 18 inches deep.

Febr. 15. Hart & Schieber take besides their own saddle my mule & saddle for the Alcalde to feed them a animal there at the rate of \$5.00 per head & per month. I swap afterward with Vespino for a gray horse, and pay the Alcalde Don Ignacio Mariano Pinho \$3.00 for horsefied up to March 16. The Alcalde promises to give me a sorrel pony, strong, tall & wild for my gray horse. I keep at home, taking care of my wound. Things & matters go on quite smoothly till the 13th of March, when Lieut. Lewis Johannings is brought before a court martial and on the 20th he is dismissed from the service of the United States. The 23rd we learn by express sent by Colonel Donaphan, that he has beaten the Mexicans near Chihuahua loosing only 2 men & killing about 250 of the enemy and afterwards taking possession of the city of Chihuahua. The same day the 23rd we have election for lieutenant in room of Johannings & DeMolte. P. M. Candidates are. De Harle, Weber, Casper, De Molte gets 52 votes & is elected. Weber got 5 & I got 33 votes but good ones, namely: Weber, Siffert, Goerisch, Hart, Monroe, Horner, Lamontain, Woffall, Schump, Tazberger, Schubert, Brontzmann, Eschweiler, Goerisch, Roseler, Hermann, Herz, Helmholz, Hartman, 74

Koikes. Saethleben. — The weather continues cold &
dry March 24. The Captain appoints one to be the 8th Lt.
in room of De Schale & Rüffel as corporal in my. —
The same evening the company is invited by De Schale
to meet him at the Captain's large room to sing & drink
with him. Something like 30 men meet there & it has
visted some to our small room & by general contribution
we have a splendid supper, price 8 pence, and part
at 11 o'clock, having enjoyed the evening in singing
fine songs of olden times. All the U. S. Officers & Lt.
Genl. Alessandro cabestel are with us.

23. Genl. Richlin & Drago come from los Vegas, on
grazing ground p.s. & report 40 horses present.
Grazing stags here, the two others shot back on the 27th.
The weather appears to have a notion of improving
April 20. The mail from the States brings us the news that each Klartea
who enlisted for a year had served more than three months
and got his honorable discharge with hereafter be entitled
to 160 acres of land to be taken anywhere Congress laid it.
We learn likewise that we in W get an additional pay of
3 dls. per month.

25. One of my comrades & I with Capt. Fischer go up to the highest
peak of mountain in the neighborhood of Fort St. J. It takes
us four hours to get there, though it appears to be close by.
De Schale, Fischer, Ehrt, Kohn & Vogel make a trip with Dona Gómez
to Chango & other places south, come back May the 7th.

* On the 15th of June Capt. Fischer Comp. of Infantry is discharged
as their time of enlistment has expired. Most all the men
leave in the course of the month. — Capt. Fischer goes
south and returns on the 22nd of June with a lot of mules
bought on speculation, sells them next day to Captain
McKiffert. We have 3 days before set off to report
to Lieut. Hauffenthal in the grazing camp near
los Vegas, to learn whether he has any inclination
to raise a new company. Up to Fischer to see
best to keep his company stationed here under his command.

May 17. 1844. at 11 A.M. start from camp. This company of
Schale & Hornburg 40 go to the Hot Springs of los Vegas
and the grazing camp by order of Capt. Fischer. To
old Pinos the first day on foot, where I buy a male (yellow) of
Manuel Varela for 35 dollars. A dreadful sight all along
the road, where U. S. has left the tracks by his great
expedition, sometimes more than 20 cars off
one another and even within 100 steps. The wild beasts must
have feasted well last winter.

May 18. at 6 o'clock A.M. we start for Tecolota, where there
is 5 p.m. Th. 1 but bad road before we reached it was so.
I wonder how people ever could be induced to take such a road
over steep and rocky mountains just for the sake of
shortening distance. When we had gone up the mountains
as high, that we could nearly hear the angels in heaven sing
there Halleluja, we had to go down again, so that was
worse than going up, for the last mountain was that
stage that we could not go 5 steps in a straight line,
for fear of falling, always along declivities. The last
mountain descending took us more than one hour and
our trudging legs bore witnesses of the fatiguing trip,
for riding on a mule was surely out of the question.
With one of the brothers of Mr. Varela, the Doctor of Old Spain, we
pitched off the night. This is the last night we fare well.
The inhabitants of Tecolota were in great fear of
the Indians, as they had killed a Mexican near that place
with an arrow which was shown to us. He kept riding in
and out town, taking and bragadoring a great deal and
that was all they did and we have done in our cases.

May 19 at 7 A.M. we start for los Vegas and there at
8 o'clock, stay till six in the afternoon, when Fischer
and I make for the Hot Springs. Schale remains with his mule.
We arrive at the Hot Springs at 8 o'clock in the evening and
one hour afterwards I fall sick, chiefly occasioned as
I believe by the sight of our misery & wretched looking
country here. It is a kind of peacock, with all colors.
I have the once in the hot springs (sulfurous) but to no
purpose. In one of the sponge you might boil eggs.
May 24. Leave the sick, sick myself, after living on rolled
bagels in p. which was an order of Capt. Fischer to see,
who was for Loreto and what fort they belonged to. But there was
not to Tecolota that day. Next day at 12 o'clock, went to
Manuel Varela in the town and arrived at Santa Fe the 26th of May.

but not one was to serve any longer and then
The 23rd Lieut. Hassenroedel arrives. A great
many of our Company take their discharge
and desert under him. The Colonel, by special
favour masters us into service by Capt. H. H. Clark
on the 29th of June after the Company having the day
previous elected their officers of non com. &
officers unanimously, viz:

Captain. Frans Hassenroedel

1st Lieutenant: Heber & Casper.

2nd Lieut. Homburg & Georges.

Ordnance 1st Sergeant Hennemann (Coat
Quartermaster's Corp. Seibel. (Musk)

3rd Sergt. Brodt & 4th Sergt. Skieborg.

5th 2nd & 8th Corporals: Döckhoff, Roger, Harrison, Miller

On the 8th of June the Company consists of 5 officers
and 32 non com. off. & privates, but we get
recruits not every day. The lawful number is
64 rank & file - Capt. Fifele leaves with the rest of his men

8th of June. I am Officer of the Guard for the first time

Capt. Hamilton of the lately raised Corp. Officer of the Day.

We learn by express sent from Taos by Col. Wilcox, that Lieut.
Larken, Corp. Two & 3 privates have been killed these two
days ago in the grazing camp by Indians and Mexicans
who drove away all the animals of the 2nd Battalion.

The same day news are sent by Capt. Clark, that Lieut.
Brown of Corp. F. and 2 privates have been murdered

by the Mexicans, while hunting for lost horses. —

We patrol the city at night, but wayfaring is quiet
that to late I am relieved by Capt. Homburg
who comes with our whole Corp. on guard. Hassenroedel
is Officer of the Day for the 2nd time.

In the grazing Camp of our Corp. did Capt. Fisher
do his best by fair & foul means to keep his men
together & persuade them not to join our Corp. So did General

July 12, 13, 14. We are harassed day & night these days by
rumors of another insurrection, filling the timber houses
of our pieces, wheeling about with our pieces at right angles
and making ready things ready for an attack.

On the 13th at 9th a false alarm, occasioned by
some jackasses dragging logs into town for a batch
of adobe Tula. All troops in arms on the Plaza.
Rifles of Capt. Hassenroedel Corp. There were now about 1000 men
in the town. The garrison of Sante Fe also present about
so probably more than 300 men.

Something has been intended by the Mexicans very low, that
is clear by every species, face & by all the news brought
in from every quarter. It appears, that the general
believe in the country was, that, as Capt. Fisher had
left the place, there was no more Artillery in town.
But we would have known then, that it were greatly
mistaken. We are prepared and ready at the moment of
warning to give them a warm reception without loss to us.

The 14th Horses, in the first line of the guard,
celebrated his birth day in style at our quarters.

Plenty of chocolate, cakes, pie, punch, music & song
all night. Besides the officers, H. L. Moore and
a few of our old comrades in arms were invited.

The days are very warm now a day, but the nights cool,
and if it was not for the batzuz, a person might sleep
well.

8 days ago

July 15. Our animals, who had been sent to the fort
at Indian village on the Rio Grande, are brought back

to day for want of grass there. The fort is about 16 miles
distant. There was shot this morning to have four good grazings of 15 miles S.W.

Express arrives at 3 o'clock P.M. bringing the news of a great battle

being fought about 150 from the City of Mexico at the National Bridge,
in which 500 Americans fell, but the enemy was totally beaten
with a loss of 1500 men killed and 6000 men taken prisoners.
The whole camp of the enemy was taken. Santa Anna himself
made a narrow escape, losing his equipage etc.

July 17. In honor of the victory of the American army and the
taking of the City of Mexico we fire a salute of 30 guns

July 25 to 31. I am member of a so called Drum Head Court Martial.
The other members are: Capt. Jackson, Capt. Boelee, Capt. Clark,
Lieut. Rogall & Lieut. Dyer, (Probaue) the latter Judge Advocate.

July 25 to 31. Note 5. in a thunder & snow storm at Bernal in the afternoon

We go only 2 miles, feed our animals well, and then rest during

Note 6. in a snow storm again, wind blowing extremely cold

and get to Del Norte in the afternoon (8 miles from Bernal)

Note 7. We start at 9 A. M. get through a barren and desolate country to San Felipe late at night, pass more than 60 dead bodies by the Illinois Batt. Our wagons are not up at night and we fare pretty badly this night for want of everything.

But the three Comp. of Inf. with whom we catch up

(Capt. Workman, Pauls & Cunningham) supply us as far as possible. The next morning we set for the last wagons left behind and the weather

getting so bad, we get along pretty well.

San Felipe is the first and desirable place since we

left Santa Fe, going south, fine clear houses on

the right side of the Rio Grande, where for we have

to send all our animals over to the other side for food.

McCallum 2 o'clock P. M. we start for Elizadon 12 miles

8. 4 miles from San Felipe, arrive there safe & search pitch our tents on a place, where some time ago Corn grew and stay here right comfortable in our tents. Next morning Note. It is winter again, had snow all night. We continue here today. Clear weather. At ten A. M. the 3 Comp. of Dragoons arrive, but go about one mile farther down to encampment.

Note 10. Private Weber at applesleeps on guard lets all our animals escape out of the Corral. We hunt for them all day & find all again but one. Cold strong wind

Note 11. Perfect storm last night & colder than ever. Rattle in the morning, dry fire. We start at 10 o'clock A. M. get 3 miles farther to Bernalito, stay near a river, but strong cold breeze. A ludorous yell: a hog steals a blanket from a Mexican back and runs away with it in his mouth, the Mexican after him catches him at last, but don't get his blanket back, for another Mexican comes to his assistance opens the skin of the beast with a piece of wood & takes the blanket out of his teeth. — Splendid buildings, composed with stone & brick. Fine orchards but no profit to us. Toward evening cloudy, cold.

Note 12. We stay here another day. Rainy last night. Early in the morning fine & calm; then wind & snow. Col. Easton & Major Spalding pass by at 11 o'clock to Albuquerque.

Note 13. At 3 o'clock A. M. the bugler blows reveille, we start therefore at sunrise go by Elizadon & Candelaria to Los Ranchos 30 miles from Albuquerque. The finest day, a person could wish for. Pretty camping ground.

Note 14. The fine weather continues. This Sunday and so

Note 21 another Sunday seen us on the same spot. Drove on horseback at the canons & cañonito all week. Dr. Homburg left for Santa Fe on the 18th

Note 22. Dr. Hoberg with his wagon train comes up. Dr. Homburg returns

Note 23. with power from Col. Newby to dismiss George T. Brown out of service.

Note 24. Brown is drummed out in the morning.

Note 25. We start from Los Ranchos through Albuquerque 2 miles farther below, because there on level ground near the river.

Note 26. We stop here, pay visits in Albuquerque & at Parsons

Note 27. We start for the crossing place 9 miles below and by 8 o'clock P. M. we get through with canons, cañonito & the river.

The road thus far was excellent. Good camping ground.

The village across which we encamp is called San Pedro.

The first place in Old Mexico, I have ever been in.

May Note 28. We stop here all day to wait for the plough crossing

Nov. 29. We slept in the morning and go forward ~~in~~ was 3 $\frac{1}{2}$ hours.
The days are very warm and the nights very cold.
The river is naked in the street.
No houses along side of the river. nothing but sand hills.

Nov. 30. As the train came up late last night, we stop today
~~and~~ disagreeable day. Spend today, that a respite of peace from the
Diseases. We stop here again today.

Decr. 2. We go about 8 miles to Los Javos, where we arrive at 12 a.m.
Decr. 3. To Garavito about 10 miles. The inhabitants have a
feast of their patron Saint Gabriel or as they say San Francisco.
They are dancing in the streets as masked and dressed with bishop's
hats, one ass, buffalo & another as down all kind of costumes
in their hands, wearing fine shawls etc. flying round them.
Straight there is a grand fandango!

The days continue warm, weather fine nights very cold.
Decr. 4. We go about 8 miles to Los Ranchitos through a
good deal of cotton timber and swampy places
get on the wrong track to the left & our train gets
disjoined of the right road to the right.

Decr. 5. We go 3 miles to Sastates through sand. Sunday
Decr. 6. The whole camp is drunk this morning, having
been to a fandango & enjoying a wine barrel of
a spirit man, who went with wine in carritos &c. etc.
We start at 10 o'clock. On the road the soldiers in
their caps another wine barrel of a Mexican wine
traders coming from El Potosi. The best road
we have had we find to lay back for the
next 2 miles, where deep sand & hills. Our
way you train is bordered and the road & duck
come up to us where we encamp i.e.
opposite La Goya. No sand now for
12 miles we made to day. In the evening
of next night very warmly but not cold.

Decr. 7. We stop here ^{tuesday} on a fine level ground
between timber & splendid range for
our bed. La Goya opposite us the
road for 8 miles to come is very bad &
bad

Decr. 8. We start early & soon get to a sandy hill for bushes
this one mile always upward & over this foot deep sand
The road then is getting a little better off the river
always, till about 6 miles farther we get down to the
river, where we find our train standing & the Corps of
Shipping & Boats encamped. The Major, Bath, we
find about 2 $\frac{1}{2}$ miles farther down on the river in a finely timbered
camping ground, plenty grape trees, but their cattle have
all died for want of proper care on the road, their
company's San Joaquin is gone to Sorata to
raise 5000 dollars in order to buy fresh cattle.
We go yet 3 miles further to a small village called
Pulicadero. At 3 P.M. the wind begins to blow very cold,
and from four till 6 we have the fiercest snow storm in
the world. Our corps. wagons come up very late & so
that only few boats are pitched on the snowy ground.
Most soldiers go to houses for the night.

Decr. 9. Fine morning. About 4 inches snow on the ground.
We will start at noon for La Metal about 3 miles
from here, where they say there is better accommodation
for our animals. This La Metal is said to be half way
to El Potosi. We arrive at 2 P.M. Cold & windy, some snow.

10 & 11 at La Metal. Cold windy & snowy days. Skating, playing.
12. We start for Socorro 7 miles from La Metal arrive in the
afternoon. Dreadful storm. Heaven & earth full of dark
Clouds. The Corp. at Santa Fe ^{in winter quarters} and are under arms. Walked on
13. At Socorro. Donde Weber found guilty of having stolen 2 blankets & one of golden
14. Wedged for Lopez, 5 miles below, get there at 10 o'clock. Encamped place on
the road to cross through a muddy pond, encamp here on a windy square
in town.

15. We start early get on a good road along plenty timber about
12 miles below encamp after having passed San Antonio, a
new built place near the river surrounded by grape timber.
Fine warm day one more after many cold ones. I freeze
so hard at night that we can cross arms of the river on
horseback. A lucky escape. I take my double
barrelled gun, go down the river shoot 2 ducks in one shot
but stronger enough the same shot burst a barrel
and breaks the cock, but more strange it is in this West
Two men of our Corp. report themselves from Socorro by Capt. Hazellon
taken from some other place.

Feb 16. We go about the river & camp 9 miles below near an old deserted or by Indians destroyed place called Val Verde. Fine crossing, fine weather.

Feb 17. Fine road between trees for some distance. Then a long dreary sand hill. Barto arrives in camp when quite dark. We came about 10 miles. Our camp is in the bottom, before a small road through cane & trees leading to the river $\frac{3}{4}$ of a mile off. Grass on the hills is good in the bottom all over saltpetred all along the road, gently rising and salted to the ground in white of gall, like snow.

Feb 18. We go today 8 miles, from camp it goes right straight up a steep, deep sandy hill, where all the oxen teams have to double like yesterday, but this time is worse, and even afterward the road continues very sandy. We go along the bluff, encamp down the hill in the bottom at a camping ground called La Cristobal, the last watered place before we get into the Sonora. The last two days traveling is worse than the Sonora. At 6 o'clock P.M. we receive orders from Genl. Price & Major Walker by express from Sonora to stop our march & make a report to Major Walker. Very warm day.

Feb 19. We stop here today & find in the course of the morning that 30 government mules & 20 team horses (besides 4 mules & horses of Kartig's & 1 of the express) are stolen, very likely by Indians (Apaches) & Mexicans (Aborigines of Wavoyota?) together. We track 20 animals some 30 miles through the Sonora, find some carriages but that is all. The Indians are however short of arms, we lose the track in the night, no water for 50 miles farther and I with my 5 men return in the night arriving in camp at 3 o'clock in the morning of the 20th when I learn, that the other expeditions have not been more fortunate, Genl. Stevenson reported already in the evening & that Frost a private in our Corps. had died, having been lost with for a short time, last being aware of it shall we bury him to day. Genl. Frost being gone to report an application of 15 men & 1 of those Mexicans, changed us as a guide toward Sonoro to chase the robbers, who went by that way.

21. Ficas stopped late with 5 men for Sonoro to get mules for our caravan at 9 A.M. Warm days, cold nights. Our camp is near the river, surrounded by the bluffs, sandy, large salt flats, salt points (salt), 1 foot deep, many dogs & hawks.

El Padre Nuestro.

Padre nuestro, que estas en los cielos,
santificado sea tu nombre.
Venga a nos tu reino,
Hagase tu voluntad,
así en la tierra, como en el cielo.
El pan, nuestro de cada dia dánoslo
hoy,
Y perdónanos nuestras deudas,
así como nosotros perdonamos a
nuestros deudores;
Y no nos dejes caer en tentación,
mas libranos del mal. Amen.

El Ave María.

Dios te salve María, llena eres
de gracia, el Señor es contigo;
Bendita su entre las mujeres,
y bendito el fruto de tu vientre
Jesús. Santa María, Madre
de Dios, ruega por nosotros
pecadores, haora y en la
hora de nuestra muerte.
Amen.

Star Spangled Banner.

Oh! say, can you see, by the dawns early light,
 What so proudly we hail'd as the twinlights last gleaming?
 Whose broad stripes and bright stars, through the perilous fight,
 O'er the rampart we watch'd, were so gallantly streaming;
 And the rocket's red glare, the bombs bursting in air,
 Gave proof through the night, that our flag was still there,
 Oh! say, does the star spangled banner yet wave
 O'er the land of the free, and the home of the brave?

2.

On the shore dimly seen, through the mists of the deep,
 Where the foe's haughty host, in dread silence reposes;
 What is that, which the breeze, o'er the low ring steep,
 As it fitfully blows, half conceals half discloses?
 Now it catches the gleam of the morning's first beam,
 In full glory reflected, now shines on the stream.
 'Tis the star spangled banner, oh! long may it wave,
 O'er the land of the free, and the home of the brave.

3.

And where is that land, who so vauntingly swore,
 That the havoc of war and the battles confusion,
 A home and a country shall leave us no more?

Their blood has washed out their soul footstep's pollution.
No refuge could save the hinding and slave
From the terror of flight or the gloom of the grave.
And the star spangled banner in triumph does wave
Over the land of the free and the home of the brave.

A.

Oh! thus we is ever when freemen shall stand
Between their lord home and the war's desolation;
Blest with victory and peace, may the heaven reward them,
Praise the power that has made and preserved us a nation.
Then conquer we must, for our cause it is just,
And this be our motto, "In God is our trust;"
And the star spangled banner in triumph shall wave
Over the land of the free and the home of the brave.

Home! sweet home!

1.

Mid pleasures and palaces though we may roam,
Be it ever so humble there's no place like home,
A charm from the skies seems to hallow us there,
Which seek through the world, is never met with
Elsewhere.
Home, home, sweet home! there's no place like home.
There's no place like home.

Las Mañanitas

Las mananitas alegras
Que contigo pasé
Mientras vida tuve
Jamás te olvidaré.

Dispierta bella florona
Si ya el sueno te vino
Abre los ojitos Diosa.
Porque ya amanecio.

3.
Ya la luna se metio
Ya cantan los pájaros
Abre mi alma los ojos
Porque ya amanecio.

4.
Mira que estos reflejos
Y la luz que nacio
Tu sueños son espejos
Donde me miro yo.

5.
Mira que estos acasos
Frisa separacion
Estorcha me en los brazos
Por ultima ocasión.

6.
Me asome a la verlana
Por ver si se vea yo
Ah que esperanza tan vacia
Cuando ya amanecio.

7.
Me retiro, me retiro
Me retiro, pero no
Yome esto viene otro valo
Pero ya amanecio.

8.
En los campos Olyeos
Te contemplaba yo
Con la Diosa Perse
Cuando ya amanecio.

9.
El clavo que lame dijes
"Día de la asuncion"
No fue Earl rosa
Tic clavo me trazon.

Refrain.

Ay si! ay no

Mé quieres tú, te quieroyos

Soy pescador del onda Quenda.
Echo me anzuelo a la mar
El peje que cae me, como
Si el que no lo dejó andar
Cigame, Linda:

2.
Para donde corre el viento
Ya el viento corre sin grados.
Yamero se hunde el navio
Ya perecemos ahogados
Cigame, etc.

3.
Tu siempre has de ser sola
Si me pretendes amar
Te prometo ir a pescar
Cuatos pesca a la mar

4.
Cuando el herrador empieza
A dar golpes en el banco
Sales las Indias diciendo
Cuiles y pescado blanco.

5.
En la mar es la un pescado
Que le llaman la moyara
Mire que hermoso tengo
Pero usted no me lo agarra

Si juntovani ulos Si fuere importuna
Algun dia nra res Con as pot mi vida
No niegesel que tueres Removeras la herida
La que siempre adore Cicatrizada ya

Mai acaos llorares Un recuerdo tan solo
Mi canicas heladas Suplico a tu fuerza
Las ovejas reanimadas Una lagrima pura
Comenzarse amores Un suspiro nomas

1. La libertad.

Opelia idolatrada
Tu nacional bandera
Rompe el ayre ligera
Al grito nacional
Corramos a las armas
Nacion das valientes
Crestizuir ardiente
La ley la libertad.

2.
Tiemblen los infelices
Que oyen los leyes quieren
Los que a la patria hieren
Con su opresion brutal
Usaban nuestras vidas
El cofio en las alas
El silbido de las bolas
Al trueno del canon.

3.

Mirad los sacros magnes
Gemir en frío coro
La fiz cansada en lloro
El alma en odios y hiel
Vengemosa los heroes
Que patria nos legaron
Y con sangre compraron
La cara libertad
