INTRODUCTION

The Herman T. Pott National Inland Waterways Library

The Herman T. Pott National Inland Waterways Library was established in 1985 with major funding from the Herman T. and Phenie R. Pott Foundation, a foundation with special interests in education and the preservation of river heritage. The Pott Library is an important national resource for scholars, river aficionados, and students of America's rivers because of its unique and extensive literary, archival and photographic collections of inland waterways materials.

Archival materials in the Pott Library do not circulate, but may be used by researchers at the library during [reading room hours](#). Researchers may arrange for copies of documents and photographs from the curator of the Pott Library for a fee, according to the St. Louis Mercantile Library's [Image and Price List](#).

The St. Louis Mercantile Library Association owns the publication rights to the unique materials in the collections of the Pott Library. Any materials from this collection used or quoted for publication should be credited as follows:

THE CAPTAIN WILLIAM F. AND BETTY STRECKFUS CARROLL COLLECTION

The Captain William F. and Betty Streckfus Carroll Collection at the Herman T. Pott National Inland Waterways Library contains papers, photographs, correspondence, newspaper clippings, river charts, vessel blueprints and scrapbooks which were the personal research of Captain William F. Carroll, with assistance from his wife, Betty Streckfus Carroll. Most of the collection is focused around the Streckfus Steamers Company, an excursion Steamboat business that ran for over 100 years in different incarnations, including the ACME Packet, the Streckfus Steamers Line Company, and Streckfus Steamers Incorporated. In addition, the collection contains records pertaining to post-Streckfus incarnations of the company; the Connelly Group, Gateway Clipper Incorporated, the Mississippi Riverboat Company, and President Associates. The collection further includes photographs, papers, ephemera, blueprints, correspondence, notes and clippings pertaining to the Streckfus and Carroll families, other inland river vessels, river-related companies, and general river lore, life and heritage.

The materials collected by Captain Carroll and Betty Streckfus Carroll date from before the 1920s to the early 1990s and include many rare items and artifacts from the Streckfus Steamers Company.

The collection consists of 130 half-size Hollinger boxes, 10 oversize boxes, 14 monographs and 18 scrapbooks, totaling 91 linear feet. It is subdivided in to the following series:

- Series 1 – Streckfus Steamers, Inc. Records
- Series 2 – Streckfus Steamers, Inc. Related Businesses
- Series 3 – Vessels
- Series 4 – Streckfus Family
- Series 5 – Carroll Records
- Series 6 – Publications
- Series 7 – General
- Series 8 – Blueprints
- Series 9 – Historic Scrapbook Collection
- Series 10 – Oversize

Materials in the collection are listed according to their folder title and folder number. The folder number consists of four or five numbers, such as 8-1-1-93-9, which represent: (series #) – (subseries #) – (sub-subseries #) – (box #) – (folder #). The Captain William F. and Betty Streckfus Carroll Collection is designated as P11 (Pott 11).

Collections of magazines and newsletters to which the Pott Library already subscribes have not been cataloged individually. For perusal of a specific Magazine, please consult the [University of Missouri- St. Louis Online Public Access Catalog](#).

PROVENANCE OF THE COLLECTION

As a young river worker, Captain William Carroll absorbed all he could about the river and boats from river personalities, and later he began spending off-season lunch hours utilizing the resources at The Saint Louis Mercantile Library. As his books of notes grew, Captain Carroll began collecting documents and artifacts related to the Streckfus companies as well as to river life and lore. By the time Captain Carroll celebrated fifty years on the river in 1995, he had a large trove of research and records. It seemed natural that he would decide to gift Mercantile Library with his collection. The first part of the collection was donated when Captain Carroll moved from his house in University City in 1998. The rest of the collection was received by the Library after his death in 2000.

HISTORY OF STRECKFUS STEAMERS, INC. AND CAPTAIN WILLIAM F AND BETTY STRECKFUS CARROLL

The first incarnation of Streckfus Steamers, Incorporated was the ACME Packet Company of Iowa, which operated in the excursion trade between St. Paul, Minnesota and Alton, Illinois on the Mississippi River, from 1893 to 1910. The Streckfus Steamboat Line Company was organized on August 18, 1910, and in 1911 the company, headed by Captain John Streckfus (later known as Commodore John Streckfus, to differentiate him from his son), purchased from Jay Morton the whole of the Diamond Jo Line Steamers, giving the company four more steamers, the St. Louis wharfboat, three barges, 17 warehouses, two lots of real estate and a shipyard.

Newly purchased Steamers St. Paul, Quincy and Dubuque were made part of the passenger-freight business between St. Louis and St. Paul and St. Louis and Burlington, Iowa. Newly purchased Steamer Sidney joined the W.W. in the excursion business between St. Louis and St. Paul.

By 1920 all of the Diamond Jo Line Steamers had been converted from the packet trade to the excursion trade, and the Streckfus Steamboat Line Company sold off all of its unnecessary property. Streckfus Steamers Incorporated was formed in 1926 and the Streckfus Steamboat Line Company was dissolved that same year.

Captain Joseph Streckfus (oldest son of Captain John Streckfus) took over as the general manager of the company, with brothers and fellow captains Verne, John (Jr.) and Roy also having important roles with the company.

1931 saw the purchase and subsequent conversion of the Steamer Cincinnati to the SS President. The SS Admiral debuted in 1940, forgoing the traditional gingerbread decoration of steamboats for a sleeker, more modern stainless steel look.

Despite some lean years during World War II, the Streckfus Steamboat Company managed to be profitable into the 1970s. Then, the company ran into financial troubles that culminated with the sale of the MV Admiral in 1981 to John Connelly. Streckfus Steamers Incorporated went out of business soon after.

William Francis Carroll was born around 1920 in Boston, MA to Irish immigrant parents Timothy and Mollie Carroll. William was one of five children, including a twin brother, Robert. During the World War II, William was stationed in St. Louis, Missouri.

Elizabeth (Betty) Streckfus was born in St. Louis to Lola and Joseph Streckfus. Joseph was the president of Streckfus Steamers, Incorporated. Joseph (also known as Captain Joe) was the son of the Commodore John Streckfus, founder of the ACME Packet Company, a precursor to Streckfus Steamers, Incorporated. During World War II, Betty was working on the Steamer Admiral as a secretary and learning to steer the boat, as well as volunteering with the USO, where she met William Carroll. They were married in 1944 in a double wedding with Betty's sister, Jeanne.

After William was discharged from the Army, he started working for his father-in-law on the Steamer Admiral, eventually earning his first license as river Master.

William and Betty lived in a three-story house near Washington University in University City, a suburb of St. Louis. They had seven children, all of whom worked on the S.S. Admiral during their high school years.

Captain Carroll served as alternate Master on the S.S. Admiral and eventually was made the Master, which put him in charge of the vessel. He was elected president of Streckfus Steamers in 1979 and remained in that position until the company was sold.

Betty Carroll died in 1998, and Captain Carroll died in the year 2000.

SCOPE AND CONTENT NOTES

The Captain William F. and Betty Carroll Collection traces the history and development of Streckfus Steamers Inc., as well as its antecedent and descendent companies through correspondence, financial documents, business documents, photographs and memorabilia. In addition, the collection boasts a sizable number of photographs, blueprints, documents and ephemera related to river vessels, including but not limited to all of the Streckfus vessels. Captain Carroll also collected information on the history of steamboating, packet and excursion businesses, and river information, history, heritage and life, mostly through clippings and transcriptions; however the collection also contains some photographs, publications, charts and correspondence relating to the above subjects. There is also information regarding river personalities, including people involved with the Streckfus family and businesses, as well as river life and river work in general. Most of the biographical information takes the form of photographs or clippings.

Personal correspondence has been separated in a logical pattern from business correspondence, by date, although because Streckfus Steamers Incorporated was a family business, some personal correspondence has been impossible to separate. Where both business and personal correspondence have occurred in the same record, the record has been grouped with business correspondence. Alphabetical arrangement has been employed where appropriate to facilitate usage. Most records are described at the folder level. Some records are described at the item or box level.

Series 1

Streckfus Steamers Incorporated

The first series consists of records related to Streckfus Steamers Incorporated, the longest-running Streckfus company. The series consists of about 20.5 linear feet – boxes 1 through 29, as well as boxes 1-4-1 to 1-4-5 (the personnel files), and 11 unbound volumes of minutes and accounting ledgers.

Series 1 has been further subdivided into 5 subseries, as follows:

1. Financial Records
2. Business Records
3. Correspondence
4. Personnel
5. Miscellaneous

Subseries 1-1 (Financial Records) contains financial and bookkeeping ledgers and documents, income statements, financial statements from the years 1929 – 1987, annual recap reports from the 1960s to the 1970s, accountant's reports from the years 1926 – 1983, minutes meetings, stockholder information and tax information. Correspondence has been included in folders where appropriate.

Subseries 1-1 contains the following sub-subseries:

- Bookkeeping, Ledgers (Boxes 1,2,126,127)
- Financial Records (Boxes 3-6, Monographs 10,11)
- Financial Reports (Boxes 7-9)
- Minutes (Box 10, Monographs 1-9)
- Streckfus Stock Papers (Boxes 11-13)
- Taxes (Boxes 14-17)
- Miscellaneous Financial Records (Box 18)
- Mortgages (Box 127)

Financial documents relating the S.S. Admiral can also be found in Series 3-1, box 36. Oversize documents related to this subseries can be found in oversize boxes 5, 8, and 9. See series 10 (Oversize) for more information.

Subseries 1-2 (Business Records) contains records important to the operation of Streckfus Steamers Incorporated including accident reports, certifications, licenses and registrations, station bills and drills, schedules, and court cases involving Streckfus Steamers.

Subseries 1-2 is contained in Boxes 19-22 and 127.

Subseries 1-3 (Correspondence) includes business correspondence as well as personal correspondence. Because Streckfus Steamers Incorporated was a family business, it has not always been possible to separate personal and business correspondence. In such cases, correspondence has been filed with business correspondence. In addition, there is a sub-subseries of correspondence related to ICC correspondence. All correspondence has been filed by year, or in some cases by month and year. In addition, the following correspondence was found foldered together, and has been left so; 1955 New Orleans Dock Board Letters, 1959 – 1961 Bridge Clearances, 1960 – 1965 Poplar Street Bridge, 1975 – 1981 St. Louis Port Authority, and 1980 Board of Directors.

Subseries 1-3 contains the following sub-subseries:

- Business Correspondence (Boxes 22-26)
- ICC Correspondence (Box 27)
- Personal Correspondence (Box 28)

Subseries 1-4 (Personnel Records) includes index cards with information regarding former employees of Streckfus Steamers Incorporated. Typically, cards include the employee's name, contact information, dates of employment and some cases, job title. Dates on the cards in most cases range from the 1950s to the 1970s.

Subseries 1-4 is contained in boxes P11-1-4 box 1 through P11-1-4 box 5.

Subseries 1-5 (Miscellaneous Streckfus Records) includes records that would not fit into any of sub-series 1 through 4. Sub-series 1-5 is contained in box 29.

Oversize documents related to this subseries can be found in oversize box 2. See series 10 (Oversize) for more information.

Series 2

Other Businesses

Series 2 contains records dealing with the antecedents of Streckfus Steamers Incorporated, as well as post-Streckfus incarnations of the company. The series consists of boxes 30 through 31 (1.5 linear feet).

There are four subseries in Series 2. The subseries are:

1. Acme Packet – Box 30
2. Diamond Jo Line – Box 30
3. Streckfus Steamboat Line – Box 31, 127
4. Post-Streckfus Companies (the Mississippi Riverboat Company, President Associates, and Gateway Clipper Incorporated) – Box 32

Documents found in this series include financial documents and reports, correspondence, payroll records, and operational documents.

Oversize documents related to this subseries can be found in oversize box 2. See series 10 (Oversize) for more information.

Series 3

Vessels

Series 3 consists of documents related to various inland river vessels, both Streckfus and non-Streckfus. Most vessels are steamboats, but there is also documentation regarding a few tugs, showboats, barges and wharfboats. The series consists of 14.5 linear feet (29 half-record boxes).

Series 3 has been further subdivided into the following sub-series:

1. Admiral
2. Streckfus Vessels
3. President
4. Non-Streckfus Vessels

The following vessels have been known as more than one name. Therefore, information may be found under other entries, according to the vessel's name(s). Each vessel is followed with its other name(s), in parenthesis.

- Albatross (Admiral)
- Altona (Emerson)
- Admiral (Albatross)
- Capitol (Dubuque)
- Cincinnati (President)
- City of Winona (W.W.)
- Dubuque (Capitol)
- Emerson (Altona)
- Freddie (Mac)
- Gordon C. Greene (River Queen)
- JS Deluxe (Quincy)
- Mac (Freddie)
- President (Cincinnati)
- Quincy (JS Deluxe)
- River Queen (Gordon C. Green)
- St. Paul (Senator)
- Senator (St. Paul)
- Sidney (Washington)
- Washington (Sidney)
- W.W. (City of Winona)

Subseries 3-1 (Admiral) contains documents regarding the Streckfus flagship, the S.S. Admiral. The Admiral was later dieselized; documents regarding the M/V Admiral, as well as the President Casino on the Admiral can also be found in this sub-series. Correspondence has been included when appropriate.

Subseries 3-1 contains the following sub-subseries:

- Engineering, Design and Maintenance (Boxes 33-35)
- Financial Documents (Box 36)
- Operations (Boxes 37-39; Oversize 2 and 5)
- Photos (Boxes 40-41; Oversize 1, and 2)
- President Casino on the Admiral (Box 42)
- Save the Admiral Campaign (Box 43)
- Miscellaneous Admiral Records (Box 44; Oversize 5 and 6)

Oversize documents related to this subseries can be found in oversize boxes 1, 2, 5 and 6. See series 10 (Oversize) for more information.

Subseries 3-2 (Streckfus Vessels) contains documents regarding Streckfus Vessels (including antecedent and descendent companies) excepting the Admiral and President. The vessels are arranged alphabetically and records are available for the Albatross, Becky Thatcher, Capitol, Commodore, Dubuque, Freddy, Golden Arrow, Greater New Orleans, Huck Finn, Huck Finn Barge, JS, JS Deluxe, Mark Twain, Mississippi Belle, Quincy, Samuel Clemens, Senator, Sidney, St. Paul, Streckfus Small Boats, Suzie Hazard, Tom Sawyer, Verne Swain, W.W., Washington, and the Streckfus wharfboats.

Documents in sub-series 3-2 include photos, operational documents, advertisements, clippings, realia, and correspondence. Sub-series 3-2 consists of boxes 45-53, plus many oversize documents.

Oversize documents related to this subseries can be found in oversize boxes 1, 2, 5 and 7. See series 10 (Oversize) for more information.

Subseries 3-3 (President) contains documents regarding the Streckfus vessel the S.S. President. The President was later dieselized; documents regarding the M/V President, as well as the President Casino can be found in this series. Correspondence has been included where appropriate.

Subseries 3—3 contains the following sub-series:

- Clipping and Publications (Box 54)
- Engineering, Design and Maintenance (Boxes 54-55)
- Operations (Box 56)
- Photographs (Boxes 57 and 58)
- President Casino (Box 58)

Oversize documents related to this subseries can be found in oversize boxes 2 and 3. See series 10 (Oversize) for more information.

Subseries 3-4 (Non-Streckfus Vessels) contains documentation regarding vessels that weren't owned by Streckfus Steamers Incorporated or any of its related companies, as well as vessels that were later purchased by Streckfus Steamers and underwent a redesign and name change upon purchase. The vessels are arranged alphabetically and records include images, realia, clippings, and operational documents.

Subseries 3-4 consists of boxes 59-62. Oversize documents related to this subseries can be found in oversize boxes 1, 2, and 5. See series 10 (Oversize) for more information.

Series 4

Streckfus Family

Series 4 consists of records related to the Streckfus family. The series consists of about 1.5 linear feet (half-record boxes 63 and 64, as well as two monographs). Records included in the series are mostly photographs and newspaper clippings (especially obituaries), but there are also other related documents, such as the family bible, tax information, and wedding and birth documentation.

Oversize documents related to this subseries can be found in oversize boxes 6 and 7. See Series 10 (Oversize) for more information.

Series 5

Carroll Records

Series 5 consists of documents related to Captain William F. Carroll and the Carroll family. The series consists of 5 linear feet (10 half-record boxes).

Series 5 has been further subdivided into the following subseries:

1. Carroll Family (boxes 65 and 66)
2. Carroll Notes and Writings (boxes 67-75)

Subseries 5-1 (Carroll Family) contains documents related to the Carroll family. Documents include clippings and photographs, as well as a family tree and personal and professional documentation – certificates, licenses, correspondence and the like.

Oversize documents related to this subseries can be found in oversize boxes 2, 3, 7 and 8. See Series 10 (Oversize) for more information.

Subseries 5-2 (Carroll Notes and Writings) contains records written or transcribed by Captain William F. Carroll himself, sometimes with the help of his wife Betty. This series contains typed transcriptions of articles from various river-related sources dating from 1764 to 1971. In addition, this series contains Captain Carroll's notebooks, which many of the typed transcriptions originate from. A few original writings by Captain Carroll are also included in the series.

Series 6

General

Series 6 consists of 6 linear feet – boxes 79 through 88. It is an encyclopedia of waterways topics arranged alphabetically by subject, with an overarching arrangement of the following subseries:

1. River (Boxes 76 – 79, Oversize 1,2,5,6, and 7)
2. Vessels (Boxes 80 – 81, Oversize 1,2, and 7)
3. People (Boxes 82 – 85, Oversize 7)
4. History (Boxes 86 – 87, Oversize 2)
5. Miscellaneous (Box 88)

Any materials that would logically fall into another series have been arranged in the other series.

Subseries 6-1 (General River) contains documents about river towns and places, alphabetically arranged by subject (when possible, by town or city name, and otherwise by a more general subject, i.e. “Upper Mississippi River”). Documents include clippings, publications, photographs, river charts, and government documents.

Oversize documents related to this subseries can be found in oversize boxes 1, 2, 5, 6 and 7. See Series 10 (Oversize) for more information.

Subseries 6-2 (General Vessels) contains documents about river vessels. Documents about specific vessels can be found in series 3 (Vessels) or series 8 (Blueprints). Documents have been arranged alphabetically, and include clippings, publications, photographs, and operational documents such as rivers rules, U.S. Coast Guard publications and licenses.

Oversize documents related to this subseries can be found in oversize boxes 1, 2, and 7. See Series 10 (Oversize) for more information.

Subseries 6-3 (General People) contains documents related to people involved with river life and lore. Documents about the Streckfus and Carroll families can be found in series 4 and 5, respectively. Personnel files for Streckfus Steamers Incorporated employees can be found in sub-series 1-4. Subseries 6-3 (General People) contains documents related to employees of Streckfus Steamers as well as “river personalities” – people important to river life and lore in the locals Streckfus Steamers operated in – especially St. Louis . A large part of the series is records related to musicians who performed on Streckfus vessels. Documents include photographs, clippings and correspondence.

Oversize documents related to this subseries can be found in oversize box 7. See Series 10 (Oversize) for more information.

Subseries 6-4 (General History) contains documents related to river history and lore. Documents related to the history of Streckfus Steamers and its antecedent and descendent companies may be found under individual company entries, in series 1 and 2. Subseries 6-4 (General History) contains clippings, publications and photographs, as well as correspondence and related documentation for some river-related businesses.

Oversize documents related to this subseries can be found in oversize box 2. See Series 10 (Oversize) for more information.

Subseries 6-5 (General Miscellaneous) contains records that don't relate to anything else in the collection. Any materials that logically fall into another series have been filed in other series.

Series 8

Blueprints

Series 8 (Blueprints) consists of 16.5 linear feet – 32 half-record boxes. The blueprints are divided into three subseries:

1. Admiral (Boxes 93 – 107)
2. President (Boxes 108 – 120)
3. Vessel (Boxes 121 – 124)
4. Vessel Parts (Box 125)

The following vessels have been known as more than one name. Therefore, information may be found under other entries, according to the vessel's name(s). Each vessel is followed with its other name(s), in parenthesis.

- Albatross (Admiral)
- Altona (Emerson)
- Admiral (Albatross)
- Capitol (Dubuque)
- Cincinnati (President)
- City of Winona (W.W.)
- Dubuque (Capitol)
- Emerson (Altona)
- Freddie (Mac)
- Gordon C. Greene (River Queen)
- JS Deluxe (Quincy)
- Mac (Freddie)
- President (Cincinnati)
- Quincy (JS Deluxe)
- River Queen (Gordon C. Green)
- St. Paul (Senator)
- Senator (St. Paul)
- Sidney (Washington)
- Washington (Sidney)
- W.W. (City of Winona)

Subseries 8-1 (Admiral) consists of the following sub-subseries:

- Air Conditioning
- Boilers
- Electrical
- Elevators
- Engines and Repowering (includes blueprints of dieselization)
- Erection Plans
- Gallows Frame
- Hull
- Longitudinal Section
- Oil Compartments
- Steel
- Main Deck (1st Deck)
- Cabin Deck (2nd and 3rd Decks)
- Dance Floor Deck (2nd Deck)
- Mezzanine Deck (3rd Deck)
- Cafeteria and Promenade Deck (4th Deck)
- Roof Deck (Lido/5th Deck)
- Pilot House and Texas Deck
- Multiple Decks
- Miscellaneous
- Mazie Krebs

When possible, blueprints have been arranged in the following order; first, into a specific category of machinery or structural blueprint (i.e. “Boilers” or “Erection Plans”); second, into the deck on which the blueprint has resided (i.e. “Main Deck (1st Deck)” or “Multiple Decks”); and thirdly, when no other fit could be found, “Miscellaneous.” The sub-subseries “Mazie Krebs” is drawings by one of the designers of the S.S. Admiral and S.S. President – they tend to be sketches in colored pencil rather than blueprints, and therefore merited their own sub-subseries; Mazie’s drawings may supplement other blueprints for the researcher.

Oversize documents related to this subseries can be found in oversize boxes 1, 4 and 6. See Series 10 (Oversize) for more information.

Subseries 8-2 (President) consists of the following sub-subseries:

- 1st Deck
- Cabin Deck (2nd and 3rd Decks)
- 2nd Deck
- 3rd Deck (Mezzanine)
- 4th Deck
- 5th Deck (Roof)
- Multiple Decks
- Boilers
- Electrical
- Elevations
- Engines
- Erection
- Hull
- Mazie Krebs
- Pilot House
- Steel
- Wheels
- Miscellaneous

When possible, blueprints have been arranged in the following order; first, into a specific category of machinery or structural blueprint (i.e. “Boilers” or “Electrical”); second, into the deck on which the blueprint has resided (i.e. “1st Deck” or “5th Deck (Roof)”); and thirdly, when no other fit could be found, “Miscellaneous.” The sub-subseries “Mazie Krebs” is drawings by one of the interior designers of the S.S. Admiral and S.S. President – they tend to be sketches in colored pencil rather than blueprints, and therefore merited their own sub-subseries; Mazie’s drawings may supplement other blueprints for the researcher.

Oversize documents related to this subseries can be found in oversize box 5. See Series 10 (Oversize) for more information.

Subseries 8-3 (Vessels) contains the blueprints of various vessels from the Streckfus companies as well as many blueprints from non-Streckfus vessels that arrived with the collection. This subseries is arranged by vessel name alphabetically.

Subseries 8-4 (Vessels Parts) contains the blueprints of specific parts from unnamed vessels. The subseries has been arranged alphabetically.
