Community Connection

Dear friends, neighbors and community members,

Happy New Year! I am so energized by the potential of 2023. As you will see in this month's news features, exciting things are happening in our area schools and local entrepreneurs are reaching new heights. People are getting more involved in their local communities through programs like our Neighborhood Leadership Fellows partnership, and UMSL is poised to begin the new physical transformations of our campus.

To start off the year, we are pleased to invite you back on to campus as we begin the spring semester honoring the legacy of Dr. Martin Luther King, Jr. at our annual holiday observance. The theme of this year's in-person celebration is, "Give us the ballot! How do we leverage the power of our collective voices to impact change?" We hope to see you, our friends and neighbors, at the January 16 event, as well as throughout the year. Celebrations, partnerships, and progress are in store for us in 2023, and we are excited to continue this journey with you!

B Juiced juice bar opening in Ferguson in 2023

St. Louis Magazine, Jenny Agnew, December 27, 2022

Brandace Johnson plans to open a juice bar in Ferguson next year. B Juiced—Johnson's line of handcrafted, raw, organic cold-pressed juices—will expand to a brick-and-mortar, slated to open on April 1 at 605 S. Florissant. The decision comes after Johnson was recently awarded a \$50,000 grant from [UMSL Accelerate](#). In addition to juices, smoothies, and smoothie bowls, the juice bar will offer a small menu with such dishes as avocado toast, waffles, and salads.

Prior to applying for the UMSL Accelerate program, Johnson had been selling B Juiced out of a trailer at the Ferguson Farmers' Market and events across North County. In late 2020, after Johnson got COVID-19, she sought out juices while recovering. Although she found a juice bar that delivered, the company didn't deliver to her neighborhood near UMSL's campus. Johnson decided to make her own juices and ensure they would be available in areas where there are fewer healthy options, such as Ferguson. About a year into operations, Jada Huffman, a friend from middle school, joined Johnson as a business partner, and it's been a "two-woman show" ever since. [Read more.](#)

Keeping arts in the classroom

St. Louis County Community News, Wendy Todd, December 14, 2022

Jennings School District starts Early Childhood Fine Arts Department to help young learners benefit from engaging in the arts

Studies show that students engaging in arts education experience multiple benefits including higher academic performance, lower dropout rates and increased self-esteem. Research regarding arts education for early childhood students has shown it can help them cultivate critical abilities such as enhanced cognitive skills and provide benefits in emotional and social development.

Arts in education was first introduced into public school curriculum in 1821. Massachusetts was the first state to integrate arts education into the general education program in 1860. It wasn't until 1990 that the Missouri Arts Education Task Force "established a comprehensive plan to include the arts as a basic component of every child's education."

The Jennings school district recognizes the importance of the arts in education, particularly for young learners and recently created an Early Childhood Fine Arts Department. [Read more.](#)

Christian Hospital 6th annual "Embracing the Dream" Celebration and luncheon

Friday, January 13, 2023
11:00 a.m. - 1:00 p.m.
Christian Hospital Paul F. Detrick Building Atrium

This annual event exemplifies Dr. King's teachings. Open to the community, during this celebration five unsung local heroes and numerous student scholars from the local community will be recognized. Guests will enjoy great music by Denise Thimes and visit with Xernona Clayton, Civil Rights Leader and Broadcast Executive, who worked closely with the late Rev. Dr. Martin Luther King, Jr.

UMSL prepares for 60th anniversary

2023 holds the promise of an exciting time for the UMSL community, both on and off campus! Current and past students, our neighbors and community stakeholders have a great opportunity to help the campus celebrate our 60th Anniversary, while witnessing its flourishing future come alive through [TransformUMSL](#).

The 2023/2024 academic year marks the celebration of six decades of UMSL's service to the St. Louis region. The UMSL community will honor this milestone in a variety of ways including on-campus events, social media campaigns and community service initiatives. September 15, 2023 marks the official 60th anniversary of the University of Missouri-St. Louis and, with that, "UMSL Day" will launch a year of festivities with exciting events and encouragement to show UMSL Pride by wearing our famous red and gold colors no matter where you are in the world! Additional campaigns will take place throughout the year, including a community service initiative and an Alumni Spotlight that will showcase some of the amazing individuals who have taken their experience at UMSL into the world. The 60th anniversary not only honors a spectacular history of this community, but also introduces the bright future to come on campus with the start of the initial phases of TransformUMSL. Major steps begin throughout the 2023/2024 academic school year to establish an academic core on the UMSL North Campus, paving the way for the new North County Business and Workforce District on campus south of Natural Bridge.

Whether someone attended UMSL in the past, is a current or future Triton, or is simply one of our neighbors, we invite everyone to be part of the celebration of UMSL! It has been our pleasure to have support from our region for 60 years, and we look forward to continuing our commitment to inclusive prosperity and innovation for decades to come.

3-day Intensive Web Analytics Bootcamp

Saturdays, January 28, February 4 and 11, 2023
9:00 a.m. - 5:00 p.m.

Understanding web behavior is important to ensure a good user experience and maximize the conversion rate of visitors to customers. There is an abundance of web data out there. Knowing what is important and what is not is critical to you being productive and effective. Not understanding what is happening under the hood of Google Analytics will not allow you to be as effective as you can be. This course is offered in-person only! The day-long class will have one break in the morning, and one in the afternoon, as well as a one hour lunch. Registration fee is \$595. For more information and to register, [click here](#).
