LEC 001 MTW 08:00 - 09:15 am CH -00206 Peterman,S

This pilot course follows the co-requisite model which is based on successful results from COMPLETE COLLEGE AMERICA (CCA) research. The co-requisite part of the course is a remedial course that students take at the same time as their normal, college-level course. Students receive targeted support to help boost their understanding and learning of the college-level course material. Remediation is delivered as a co-requisite, rather than as a prerequisite, thus providing just-in-time academic support.

This particular pilot course works by offering students who are repeating Math 1030 after a failed attempt or for STEM majors who have not been able to obtain the cut score for ALEKS but have achieved a 25 or higher. The students who successfully complete the course will earn three credits for College Algebra and will then be ready to enter the other mathematics courses that are required for their degree. The regular college algebra course has three 75-minute classes, meeting three days a week. The pilot co-requisite course would have five 75-minute classes, meeting 5 days a week. The two extra days, Mondays and Wednesdays, would be spent on strengthening material and would be conducted by an experienced session leader. On Mondays, the students would be working on the "just in time review" required for the Tuesday lectures. On Wednesdays, the students would work on the more difficult of the new concepts for the week.

Students must take ALEKS Math Placement test in order to register for this section of Math 1030 and a minimum of score of 25 on ALEKS is required. Students should take advantage of the free Prep and Learning module to refresh their math skills in preparation for the course.
