

## Posting your video in Canvas

Note, it will take a bit of time before your video is available in the MyMedia library. Don't panic if you don't see your video immediately.

1. Navigate in Canvas to the Discussion, Page, Assignment or Announcement you want to post the video in.
2. On a discussion board, click **Reply** to start a discussion board post. For all other elements click **Edit**.
3. On the Rich Text Editor tools menu, select the Kaltura icon.

4. In the menu that pops up, select the source of your video as Kaltura.
5. To the right of your video, click the dropdown next to the Select button.

6. Select the size you want to embed your video. *Small or Medium is recommended to keep the discussion thread from getting to unmanageable. The video can always be expanded to full screen for viewing.*
7. Click **Post Reply** or **Save**.
