Tracy Brosch at
tracylbrosch@gmail.com

Teachers teaching teachers. That's what we do best. Come gain a little insight into the wonderful world of Google inside your classroom. Several presenters will give short introductions to some of the best Google has to offer. Plus, you will have time to actually create something beautiful for your classroom while TCs shuffle around and offer help. All tech comfort levels are welcome. Google has easy-to-use features for the most apprehensive, and new features for the digital know-it-all. Still have questions? Contact Tracy Brosch at tracylbrosch@gmail.com
