

STL CyberCon 2025: Call for Poster Submission

STL CyberCon 2025 invites researchers and practitioners to share their work through the conference's Poster session which will run concurrently with the main conference. Student participation is highly encouraged. The poster session offers an excellent opportunity to exchange ideas, showcase ongoing research, and receive feedback from fellow researchers, professionals, and industry experts.

Poster submission

- Submission deadline is November 10, 2025.
- Notification of acceptance will be given by November 12, 2025.
- Submission must be made through the "Submit Poster Presentation" Link on the conference website
- Posters should not be more than 48 inches x 36 inches in dimensions.
- Poster presenters must bring their posters to the conference and not send them through email or postal mail.
- Mounting space and pushpins will be available at the venue.
- STL CyberCon 2025 will not provide poster printing support.

Poster Presentation

- Poster setup can be done between 9 am and 10 am on November 14, 2025.
- Poster presentation timings are 10 am to 1 pm. Posters must remain on display during these timings.
- Posters will be presented in person in an interactive presentation style. Presenters are expected to be present by their posters during the session to interact with and answer questions from the attendees.
- Papers must be removed after the session concludes. Any posters left behind will be discarded.
