

Drug-Free Schools and Campuses Regulations [Edgar Part 86] Biennial Review: Academic Years 2018-2019

**Authors: Robin Kimberlin, MSW & Kaylie Cunningham, B.S.
Coordinating Office: Student Social Services
University of Missouri- Saint Louis**

The following report format is based on the requirements of the Drug-Free Schools and Colleges [EDGAR Part 86] Act. The following is adapted with permission from the Illinois Higher Education Center. The following report items are suggested Biennial Review format & contents.

Introduction/Overview

The Drug-Free Schools and Campuses Regulations (EDGAR Part 86) require that, as a condition of receiving funds or any other form of financial assistance under any federal program, an institution of higher education (IHE) must certify that it has adopted and implemented a program “to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees” both on the institution’s premises and as part of any of its activities. According to the Part 86 regulations, if an IHE fails to submit the necessary certification when requested to do so or violates its certification, the Secretary of Education may terminate all forms of financial assistance whether from the Dept. of Education or other federal agencies (34 CFR Section 86.1 and 20. USC &1145g.).

The Drug-Free Schools and Campuses Regulations also require IHEs to conduct a biennial review of the AOD (alcohol and other drugs) programs and policies to determine program effectiveness and consistency of policy enforcement and to implement any changes needed to either.

This legislation directs the University of Missouri-Saint Louis to maintain a written policy on alcohol and other drugs and to maintain a process that ensures policy distribution to all students, staff and faculty. The written policy must enumerate federal, state and/or local sanctions for unlawful possession or distribution of illicit drugs and alcohol, describe health risk associated with alcohol abuse or illicit drug use, describe University drug and alcohol programs available for students and employees, and specify disciplinary sanctions imposed on students and employees for policy violations. Also, the University is required to conduct biennial reviews to assess the effectiveness of its alcohol and drug prevention programs.

Biennial Review Process

In compliance with federal legislation, the Alcohol and Other Drugs Prevention Coordinator in the Division of Student Affairs, Robin Kimberlin, MSW, with assistance from the Assistant Dean

of Students in the Division of Student Affairs, D'Andre Braddix, Ed.D., has prepared this biennial review. This report covers July 2017-June 2018.

Data for this process was collected throughout the academic year. It was assessed twice for the purposes of this report; once in the December/January and once in July. Data was collected in a variety of methods, dependent on the department. The campus also participates in a large survey of 21 Missouri colleges and universities. The Missouri College Health Behavior Survey (MACHB). This survey is conducted in the spring of each year.

The UMSL Biennial Review can be found on the Student Consumer Information webpage (under the Registrar's Office): <http://www.umsl.edu/~registration/students/studentconsumer.html> Click on "Alcohol and Other Drug Policy" and a pdf is available for printing. Past reports can be requested through the Office of Student Affairs.

ALCOHOL and DRUG POLICY

From the University of Missouri Collected Rules and Regulations

200.010 Standard of Conduct

https://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct

A student at the University assumes an obligation to behave in a manner compatible with the University's function as an educational institution and voluntarily enters into a community of high achieving scholars. A student organization recognized by the University of Missouri also assumes an obligation to behave in a manner compatible with the University's function as an educational institution. Consequently, students and student organizations must adhere to community standards in accordance with the University's mission and expectations.

These expectations have been established in order to protect a specialized environment conducive to learning which fosters integrity, academic success, personal and professional growth, and responsible citizenship.

Jurisdiction of the University of Missouri generally shall be limited to conduct which occurs on the University of Missouri premises or at University-sponsored or University-supervised functions. However, the University may take appropriate action, including, but not limited to the imposition of sanctions under Sections 200.020 and 600.030 of the Collected Rules and Regulations against students and student organizations for conduct occurring in other settings, including off campus, in order to protect the physical safety of students, faculty, staff, and visitors or if there are effects of the conduct that interfere with or limit students' ability to participate in or benefit from the University's educational programs and activities.

Conduct for which students and student organizations, when applicable, are subject to sanctions falls into the following categories:

(specifically related to alcohol and other drugs) 12. *Manufacture, use, possession, sale or distribution of alcoholic beverages or any controlled substance without proper prescription or required license or as expressly permitted by law or University regulations, including operating a vehicle on University property, or on streets or roadways adjacent to and abutting a campus, under the influence of alcohol or a controlled substance as prohibited by law of the state of Missouri.*

Campus specific statement

<http://www.umsl.edu/~safetyinitiatives/concerns/alcohol.html>

The University of Missouri-St. Louis has been designated drug free and only under certain conditions is the consumption of alcohol permitted. In keeping with its educational mission, the University assumes the responsibility to better inform the campus community about alcohol and substance abuse.

The sale, manufacture, distribution or possession of any controlled substance is illegal under both state and federal laws. The University of Missouri-St. Louis Police Department strictly enforces such laws. Violators are subject to University disciplinary action, criminal prosecution, fine and/or imprisonment.

The University of Missouri-St. Louis Alcohol Policy and Missouri State statute restricts the sale, consumption and distribution of alcohol on the University campus. It is unlawful to sell or furnish alcohol to a person under the age of twenty-one. The possession of alcohol by anyone under twenty-one years of age in a public place or a place open to the public is illegal. It is also a violation of University policy for anyone to consume or possess alcohol in any public or private area of campus without prior approval by the University.

Organizations or groups violating alcohol/substance policies or laws may be subject to sanctions by the University.

SMOKING POLICY

Effective January 1, 2012, the University of Missouri-St. Louis became tobacco-free on all campus property, both indoors and outdoors. The term “tobacco-free” means that the smoking or other use of any tobacco or tobacco-type product, including, but not limited to, cigarettes, cigars, smokeless tobacco, hookahs, e-cigarettes and pipes is prohibited. Campus property includes all owned or leased buildings, parking garages and parking lots; owned or leased vehicles; and owned or leased outdoor grounds and sidewalks. This policy applies to faculty, staff, students, contractors and consultant employees, performers, visitors and the general public.

The policy does not apply to individuals in privately owned or privately leased vehicles with the windows and sunroofs or similar devices in the fully closed position.

Another exception to the policy applies to individuals participating in academic research on tobacco-related topics or other such accommodations approved by the Campus Institutional Review Board, provided that the activity is conducted in an appropriately ventilated area.

The Chancellor may approve other exceptions to the policy after considering the intent of the policy as balanced against specific facts and circumstances set forth in a written request from a senior level administrator.

The campus continues to offer free cessation coaching to faculty, staff, and as students. This includes free nicotine replacement therapy if the individual would like to use that.

Statewide Good Samaritan Law

During the 2016-2017 legislative session a Good Samaritan law was passed for the state of Missouri. "DRUG OR ALCOHOL OVERDOSES (Sections 195.205 and 195.206)

Under this act, a person who, in good faith, seeks or obtains medical assistance for himself or herself or someone else who is experiencing a drug or alcohol overdose or other medical emergency shall not be arrested, charged, prosecuted, convicted, or have his or her property subject to civil forfeiture or otherwise penalized for offenses specified in the act if the evidence, charge, prosecution, conviction, seizure, or penalty was gained as a result of seeking or obtaining medical assistance.

This act shall not prevent a police officer from arresting a person for an outstanding warrant or prevent a person from being arrested, charged, or prosecuted based on an offense other than the specified offenses in the act, whether the offense arises from the same circumstances as the seeking of medical assistance. Additionally, the protection from prosecution under this act for possession offenses shall not be grounds for suppression of evidence or dismissal in charges unrelated to this act.

Finally, any police officer who is in contact with any person or persons in need of emergency medical assistance under this act shall provide appropriate information and resources for substance-related assistance.

"Under this act, a person who, in good faith, seeks or obtains medical assistance for himself or someone else... shall not be arrested, charged, prosecuted, convicted... [if] gained as a result of seeking or obtaining medical assistance."
