Searching for rooms with a Feature(s) in 25 Live

1. From your dashboard, select **Go to Search (upper right)**

2. Change the Select Object to **Locations**.

3. Once on the Locations search, you can click on the **More Options** button to find the features. Select **Features**, from the drop down menu and a list of features will appear.

4. After you select the Feature(s) you want click **Done** bottom left of the listings.

5. **Note**: Select **Matching All** if you want to select more than one feature and want the search results to only include the list of features selected.

6. Then click **Search** (to the right) and the list of rooms with that feature(s) will appear.
