VPN – AnyConnect Installation
These instructions will install and connect the device to tritonvpn.umsl.edu
(The instructions were tested for Safari and Firefox and do not work on Chrome)

- The VPN client can only be installed from TritonNet (campus wireless network) or an off-campus system.
- Open an Internet Browser and go to https://tritonvpn.umsl.edu and login with your UMSL sso id and password. If you are in a public computer, choose Dissolvable_Client and it will uninstall after you logout of the computer, otherwise choose Client_Installed_Locally.

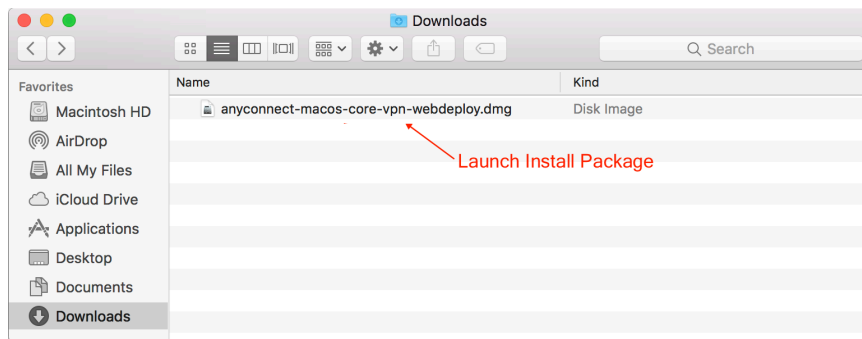

- Select "Download for macOS"
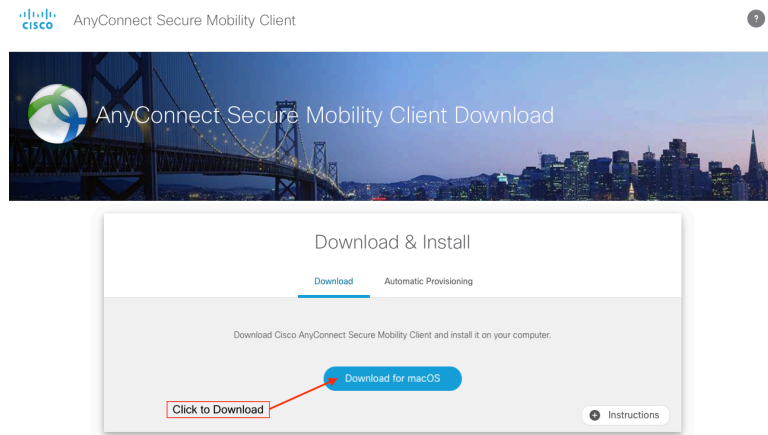

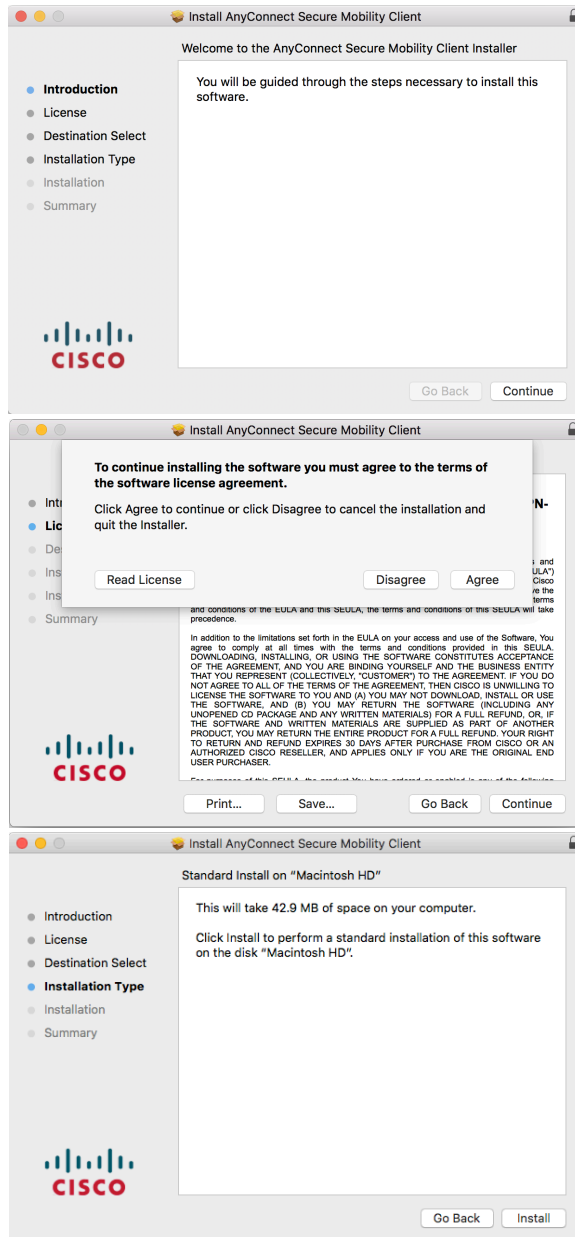

- Select "Save File" and click "OK"
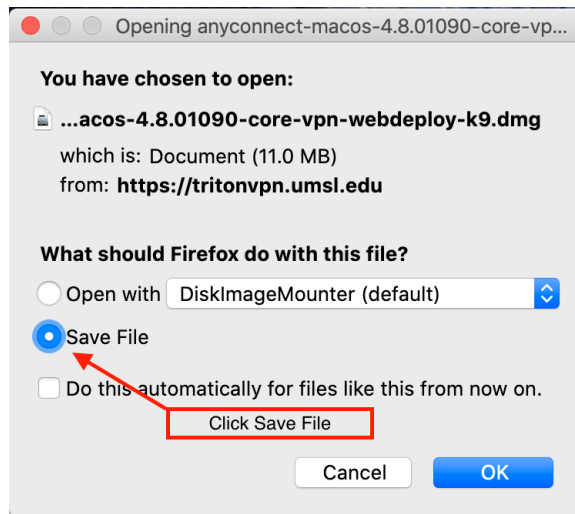

- Launch DiskImageMounter

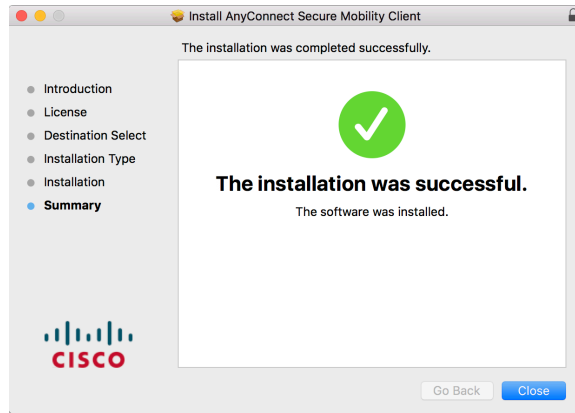

- Launch Install Package
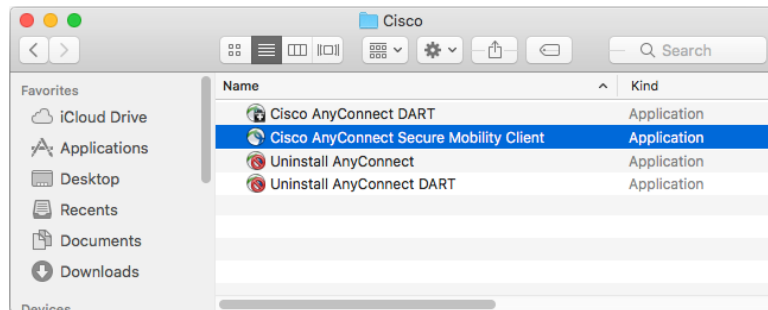

- Click "Continue" "Agree" and "Install"

- You must have elevated privileges to install Anyconnect. Enter your computer's password, then click "Install Software"
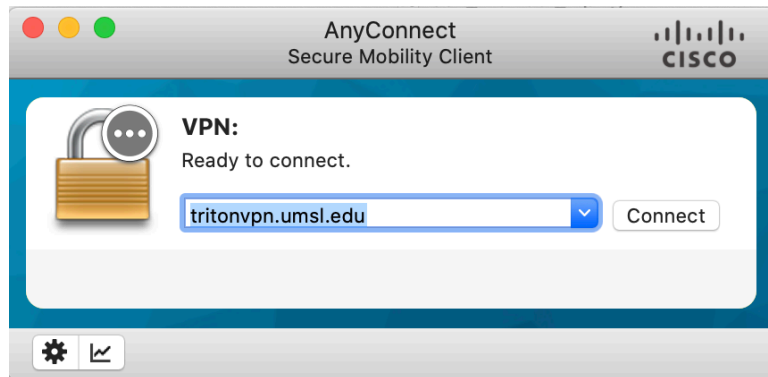

- Click "Close"

- Launch the AnyConnect client from the "Cisco" folder located in the Applications folder.

- Enter tritonvpn.umsl.edu and click connect

- When the connection is finished, the client will add an icon the menu bar (upper right).
