

## VPN – AnyConnect Installation

These instructions will install and connect the device to tritonvpn.umsl.edu

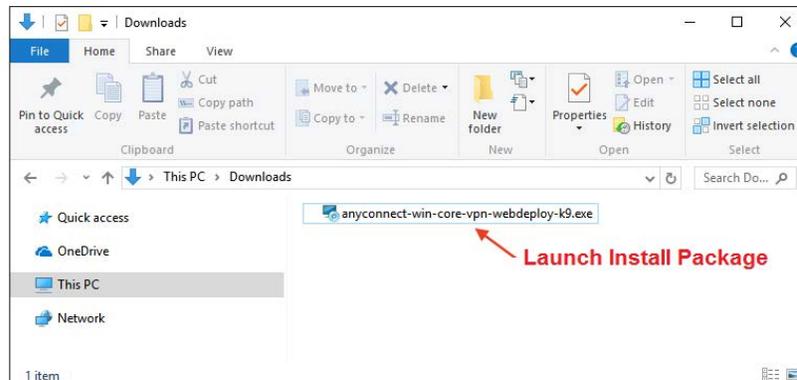

- The VPN client can only be installed from TritonNet (campus wireless network) or an off-campus system.
- Open an Internet Browser and go to <https://tritonvpn.umsl.edu> and login with your UMSL sso id and password. If you are in a public computer, choose **Dissolvable\_Client** and it will uninstall after you logout of the computer, otherwise choose **Client\_Installed\_Locally**.

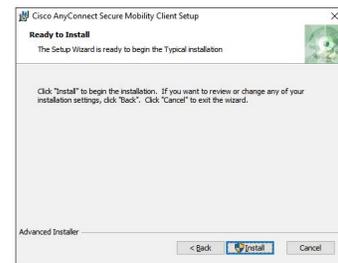

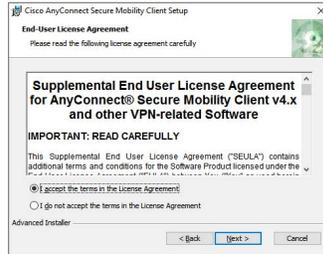

- Select "download for windows"

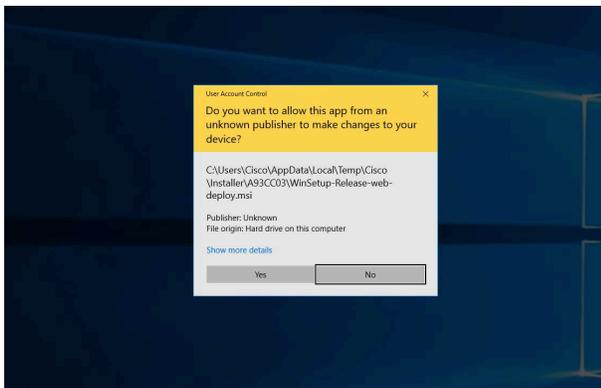

- Launch Install Package

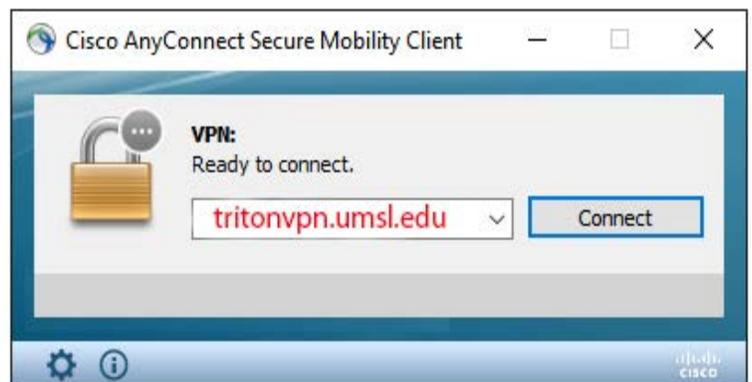

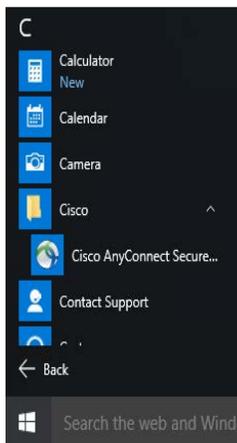

- Select "next" "next" and install

- You must have elevated privileges to install Anyconnect. Choose Yes to proceed with install and finish.

- Launch the AnyConnect client from the start menu and enter tritonvpn.umsl.edu, and click connect.

- When the installation is finished, the client will add an icon to the notification area (bottom right).
