*Students pursuing a Bachelor of Arts in Mathematics degree at UMSL must complete the third-level course of a foreign language. Without placement, proficiency examination, or other exemption of coursework, this requires the completion of two prerequisite foreign language courses as well. An SCC student that completes one of the following foreign language sequences will have their UMSL Foreign Language requirement considered satisfied upon transferring.

☐ FRN 101 French Language and Culture I (4)
☐ FRN 102 French Language and Culture II (4)
☐ FRN 201 French Language and Culture III (4)

*Note: Students may also elect to begin a foreign language sequence in *German at SCC, However, UMSL no longer offers the third level of German, and so the student would need to pursue this final language course at another intuition under the guidance of the UMSL Department of Language and Cultural Studies. This sequence rule is the same for Chinese and any other language not taught by UMSL; therefore, if an SCC student completed the first two levels, upon admission to UMSL a student would need to complete the third level at another institution under the guidance of the appropriate Department and advisor.
