

**MISSOURI SPACE GRANT CONSORNIUM
PRE-COLLEGE PROGRAMS
PLANETARIUM PROGRAM SURVEY**

Your comments about the program are an important element in the planning for its future support. Please complete this questionnaire after the program but within a week of the visit and mail in the attached envelope or send to:

NASA Missouri Space Grant Consortium
Department of Physics and Astronomy
503 Benton Hall (MC 75)
One University Boulevard
St. Louis, MO 63121-4400

Date of Presentation: _____ Presenter's Affiliation: UM-St. Louis

Names of Presenters: _____

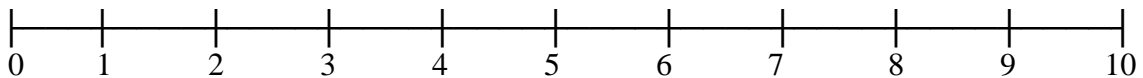

Topic of Presentation: Astronomy

Type of Presentation: Planetarium Program

1. Do you wish to keep your comments confidential? yes no
(If so, your responses will not be relayed to the presenter. They will be reviewed by program coordinators.)

The following questions are intended to record your impressions as classroom educator. Additional responses may be included in the "Comments" section (questions 17-19). Please mark the place on the answer line that most closely matches your impressions.

2. The program topic was suitable for the class:

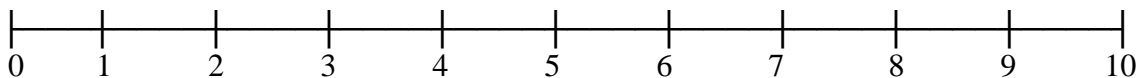

Topic not suitable

Topic acceptable

Topic matched curriculum

3. The program content was suitable for the class:

Content not suitable

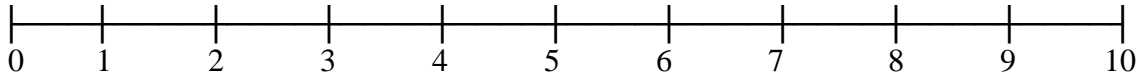

Content acceptable

Content matched curriculum

**MISSOURI SPACE GRANT CONSORNIUM
PRE-COLLEGE PROGRAMS
PLANETARIUM PROGRAM SURVEY**

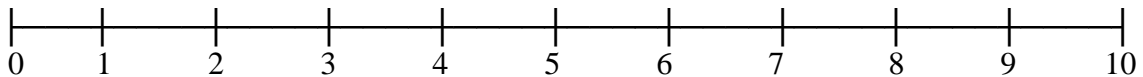

10. The program was understandable to the students:

Generally not understandable

Understandable to all students

11. The program increased students' interest for aerospace sciences or engineering:

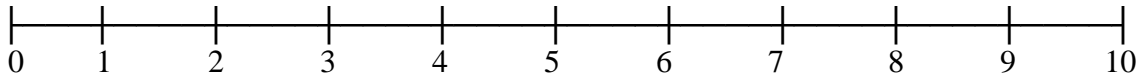

Decreased interest of most students

Did not affect level of interest

Increased interest of students

12. The program created or maintained a favorable impression of a career in aerospace science or engineering:

Decrease interest

Did not affect

Increased interest

These questions are intended to record your opinions about the planetarium program. They are not limited to your experience with a particular presenter.

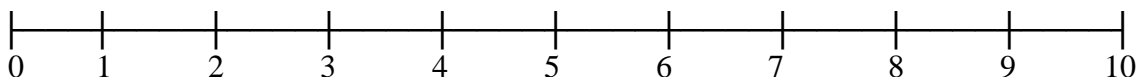

13. Please indicate your appraisal of the purposes of the program by ranking the choices, beginning with 1 for the most important and 7 for the least important.

- _____ to present up-to-date information
- _____ to increase student interest in math, science, and engineering
- _____ to allow students to meet and interact with a scientist
- _____ to allow students the chance to ask questions
- _____ to supplement classroom books and A/V materials
- _____ to present ideas and topics not part of the standard curriculum
- _____ other (please describe)

14. Were the benefits of the planetarium program worth the time and effort necessary to arrange for the visit? _____ yes _____ no

15. Would you be inclined to request a similar visit in the future? _____ yes _____ no

16. Do you feel that the planetarium program is of value to your school?

Of little value

Highly valuable

17. Comments that would improve the presentation:

18. Comments about the presenters:

19. Other comments:

20. Printed name of person completing survey: _____

Printed name of school: _____

Grade(s): _____

		All	African-Amer.	Caucasian	Hispanic	Native-Amer.	Pacific Is.	Other
No of students:	Total							
	Male							
	Female							
No of teachers:	Total							
	Male							
	Female							

The national NASA Space Grant office requires that we collect the demographic information requested above.

21. If you wish to discuss the planetarium program in general or the presentation in particular, please give us your telephone number: _____

Best times to call: _____

Thank you for completing this survey.
