

Chair letter from

Mike Allison:

We have spent our first full year on the 5th floor of Clark Hall. The Tower is gone and SSB is mostly closed for the next two years as it is being rehabbed. A new building will replace the Tower, but we will remain in Clark Hall. Stop by in a couple of years to see what the campus looks like. As faculty we are acutely aware that students also change. Each year some students graduate, and new students arrive. But graduating students are not gone.

They become alumni. We enjoy learning about your professional accomplishments, your marriages, and your kids. We enjoy catching up with you at the alumni party and whenever, wherever we run into you. Keep in touch. Faculty also change. This year, Max Gillman was on a research leave and he will be returning next year. Last year, David Rose retired and this year Anne Winkler, Don Kridel, and myself are retiring. (More on this elsewhere in the newsletter.) Again, we are not gone, just mov-

ing on to a different phase of our lives. We will stop by the department picnic and the alumni party. We may run into you elsewhere. If so, be sure to say hello.

Over 100 years of combined service, as noted by Bob Sorensen in his remarks at the Alumni Party!

Alumni Party, Spring 2025!

Next event: Student-Alumni-Faculty-Friends Department of Economics PICNIC

Sunday, Sept. 14th, 2025 at noon
Irv Zeid Park in Olivette!

UMSL Econ Happenings

Alumni Panel 2025!

Thank you to...

Derek Steiner, BS/MA 2016, Data Science Consultant, **Booz Allen Hamilton**. Previously Data Scientist at **UNCOMN** and Manager, Data Analytics, **Agilis Systems**.

Sarah Speicher, BS 2020, Senior Associate, Investment Management, **Argos Capital Partners**. Previously Operations Analyst, **Visionary Wealth Advisors**.

Scott Weibert, BS 2011, Senior Regional Underwriting Manager – Associations, **Safety National**. Previously, Senior Territory Sales Representative, **Mackinaw Underwriters, LLC**.

Resume Workshop in the ERC !

WIE (Women in Economics)

Bowling, Fall 2024:
Caleb Babione, Kaley Ware, Kristen McDonald, alum Rachel Wilbanks

Fall WIE Brunch!

Alum **Rachel Wilbanks**, **Caleb Babione**, **Kaley Ware**, **Katie Potter**, Syd Sewald, and **Dat Le**!

Thank you to Laura Rose, Senior Staff Data Scientist-Forecasting at Hinge Health for meeting with WIE students **Kristen McDonald**, **Katie Porter** and **Kaley Ware**!

More Bowling, Spring 2025!

Dat Le, **Spencer Lewis**, **Caleb Babione**, Syd Sewald, **Kristen McDonald**

THANK YOU to alum **Marcela Manjarrez** for hosting another spring WIE brunch for students and alums!

Pictured: alum **Senita Chambly**, alum **Rachel Wilbanks**, alum **Sarah Speicher**, **Katie Porter**, alum **Natalie Orf**, Kristen McDonald, and Marcela!

NABE Happenings

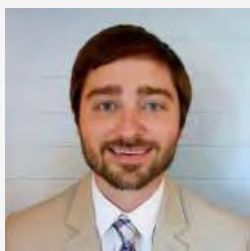

NABE held monthly dinners at the Speichers, engaged in an escape room adventure, went bowling, and enjoyed the Super Bowl together.

Photos of some of the fun!

Alumni Success 2025

Elise Barry (BS 2012) is Digital Capabilities Manager at Royal Canin and a Board Member of Mers Goodwill.

Travis Box (MA 2008) was recently promoted to Associate Professor of Finance at Clemson University. Wonderful news Travis!!

Sadie Britt (2024) is now Office Support Specialist with John Ward Economics. She works with former faculty member **William Rogers**!

Ken Brockland (BS/MA 2005) is now Senior Director, Technical Program Management at Walmart.

Erisa (Bushati) Bala (BS 2017) is now Business Project Senior Advisor at Evernorth Health Services.

Sarah Calhoun (BS 2011, MA 2012) is a Senior Economist in the LB&I Transfer Pricing Practice at the IRS in the LA area.

Mark Daffron (MA 2012) is now Senior Director of Pricing at Paysafe.

Matt Delventhal (BS 2010) just took a new position as Principal Economist with Cotality.

Gene Edmiston (BS 1991, MA 1993) is Director of Global Pricing at Monotype.

Clare Greenley (2024) is COO WIM Analyst at Wells Fargo.

Stefaniya Ivanova (2018) is now an Analytics Engineer with Sky New Zealand in Auckland, NZ

Emmanuel Kalogerakis (BS 1998) is Head of Group Finance and Transformation, RLE International Group in Germany.

Katie Keeven (BS/MA 2005) is Associate Director of Forecasting at Endo.

Jake Krutzsch (BS/MA 2021) is now an Associate Data Scientist at Post Holdings.

Kristoffer Lindal (BS 2019) is now a Pricing Manager at Lexi in Dublin.

Alex Lovell (BS 2019) started a new position as a Data Analyst at Humana.

Melissa Maxwell (BS 2012, MA 2015) relocated to Oslo, Norway where she is Product Line Director with Veracity Data Platform.

Tamara McCarthy (BS 2020) is a Financial Analyst with Bank of America in Charlotte.

Jared McCutcheon (BS 2013) is Financial Advisor and Associate Portfolio Manager at Cannon Advisors in Charlotte.

Kyle Miller (MA 2011) is a Technology Analyst at Mayo Clinic.

Naomi (Russell) Mosely (2018) recently received her RN degree! Congrats Naomi!

Natalie Orf (2021) is now Finance Analyst III at Centene.

Cory Plattenburg (BS 2024) is an estimator at WB Industries MBE/DBE.

Josh Smith (BS 2010) is a Director (and leads the Supply Chain team for Major Supplier activity at Boeing Defense, Space, and Security (BDS) in Seattle.

Mitchell Spindler (BS 2024) is a Financial Representative with Northwestern Mutual.

Gaurav Tiwari (MA 2006) is Director, Head of US Combined Operations (CUSO) Central Compliance Department at Crédit Agricole CIB in NYC.

Ben Venker (BS 2011) is now Senior Project Manager at Gitlab.

Steve Wecke (BS 2014) is now Expert Services Business Analyst at Veradigm.

SEE NEXT PAGE!

MORE ALUMNI SUCCESS!

Kat Wurl (BS 2022) is an Order Management Coordinator—MCC with Anheuser-Busch.

Craig Young, (2013) is Expert Product Owner-Data Management Platforms, at Nestle in St. Louis.

Faculty Retirements (Allison, Winkler, Kridel)

Goodbye from Mike Allison

In August of 1987, I received a telephone call from David Rose, a graduate school classmate from the University of Virginia. He wanted to know if I

would I be interested in teaching a Principles of Microeconomics class at the University of Missouri-St. Louis. Why not? He told me the chair of the Economics Department would call me. Less than a minute later, Sharon Levin called. This adjunct gig turned into a full-time job and now, 38 years later, I am retiring.

Over the years I have had the pleasure of working with a number of faculty. In particular, I want to give a shout out to the aforementioned David Rose and Sharon Levin along with Susan Feigenbaum, Bob Sorensen, Don Kridel, and Anne Winkler. They all showed through their words, and more importantly their actions, the importance of teaching - of making sure students are getting something out of their time at UMSL beyond a piece of paper.

During my time I have taught 14 different courses, from General Education Economics, Principles of Microeconomics, and Principles of Macroeconomics to Analysis of Business Cycles and Graduate Econometrics. In those courses, I have had a couple thousand students. I will admit I am bad at names - so if we should meet, please introduce yourself - I do remember many of you. The principles stu-

dent that was not passing, but visited my office often and worked hard, passing the course. The biology student in Natural Resources enjoying learning about Economics for the first time. The Intermediate Macroeconomics student that surprised me and shined during presentations. And many, many more. Thank you for giving me the opportunity to be a small part of your lives.

What will I do after retiring? I am not sure. I will continue to curl. Retiring will allow me to travel a bit further, so curling in Lake Tahoe and Canada are likely to be on the agenda. I also hope to put in more time on my bicycles. Maybe doing the Katy trail from end to end. Finally, travel. A trip to Bremen, Germany (where I taught a few summers ago); Nashville, Tennessee for the Tin Pan South Songwriters Festival; numerous trips to national parks; and a road trip to Alaska are all in the planning stages.

Faculty Retirements (Kridel, Winkler, Allison)

Goodbye from Anne Winkler

I am retiring after 36 years! I am so grateful to have joined the UMSL Department of Economics in 1989, right after completing my PhD at U of Illinois at Urbana-Champaign. I have had so many treasured colleagues from over the 3 decades—a group who equally love(d) teaching and research.

I want to flag one colleague in particular, the late Sharon Levin. Sharon served as my role model from the day I first met her at the ASSA meetings in 1988. She was a chief reason I came to UMSL and she encouraged and supported me throughout my career, from pursuing a prestigious grant from the Institute of Poverty (IRP) at Wisconsin (I received it!) to successfully negotiating with Terry Jones, Dean of the College of Arts and Science, so I could get a teaching leave when I had my boys in 1995 and 1997 (before there was FMLA). Later Sharon and I collaborated on a host of research on the role of IT in publishing productivity. I was Department Chair for 6 years and one of my proudest accomplishments is getting the ERC named for Sharon, no small task in UMSL bureaucracy. What if someone else wanted naming rights for a price?!

I have SO enjoyed teaching and mentoring. Favorite courses taught have been econometrics and all varieties of labor economics. I also taught an MPPA microeconomics policy course EVERY SINGLE spring semester on T/TH from 5:30-6:45 p.m. for 36 years. I ended with a terrific group. I also taught 1001. Despite what I think is my huge enthusiasm, I never seemed to generate (a lot of) majors. There

are also a few students out there who took 4 and even 5 courses with me. Thankfully you are successfully employed.

While I published 25 refereed papers over my career, I am proudest of being co-author of the *Economics of Women, Men, and Work*, 3rd—9th editions, initially with Marianne Ferber & Fran Blau and then just with Fran. Fran (now at Cornell) was my mentor from Illinois, back in the day.

As alums may guess, one of my favorite department service roles has been as alumni coordinator, organizing the career panel and alumni party and working on the newsletter. A highlight of my career has been seeing the success of my/our UMSL Econ students!

What now? Fran Blau and I are looking toward the 10th edition of our textbook. I also intend to attend seminars and events of interest. I will continue to play my clarinet with U City Summer Band (ucsummerband.org) and with UMSL Wind Ensemble. Finally, I will expand my volunteering. Lots of good to be done.

Before concluding, I want to give a shout out to the late Bill Barber of my undergraduate institution, Wesleyan University. He said 5 words to me that spurred me on: “I have confidence in you.” Finally, I want to share a little-known fact: I got a B in my first economics course.

2011 at MEA Conference in STL
— with Susan Feigenbaum and Sharon Levin

1989 ID card
(it used to have our SSN#!)

Faculty Retirements (Allison, Winkler, Kridel)

Goodbye from Don Kridel

After 32.5 years, I am retiring from UMSL | Economics. As retirement has come into 'full view', I have noticed several 'full circle events' surrounding my time at UMSL---with colleagues, students, and alums.

I have been with the Department since January 1993; I joined after 10.5 years with Southwestern Bell. I had taught as an adjunct for Sharon Levin (here) and Sandy Levin (at SIU-E) while I was a "Bell-head". When I decided not to move to San Antonio with SBC, Sharon found a place for me here---initially as a Visiting Professor (later in a "real tenure-track" position). Sharon and Sandy had both been students of Les Taylor at Michigan---who later was my dissertation advisor at Arizona. (Full Circle #1!)

I've enjoyed my time here: teaching econometrics, forecasting, IO, managerial economics and various flavors of microeconomics. I have been the Director of Graduate Studies for over 20 years (for administrative work, I found this to be particularly enjoyable). I also served as the Department Chair for one three-year term (BTW, I found this to be less enjoyable!). After more than 25 years of service, the Department's 'econometrics curriculum committee' (Anne Winkler, Michael Allison and me) is also "retiring"---since all three of us are retiring from the University at the end of Spring '25 term after more than 30 years of service. (Full Circle #2!)

In my (very) first class at UMSL in Winter 1993, I had two students (Bill Nieman and Gene Edmiston) that had previously worked for me at Bell. Bill has just recently retired from AT&T--his retirement party was the day before our annual Alumni Party on May 2. Matt Segrist and Joe Belsher (econometrics students and dual BS/MA's) from the mid-2010's happened to be at The Civil Life

that same night. Matt and Joe (gladly) assisted Bill in extinguishing his 'AT&T retirement party budget'. (Full Circle #3!)

Each year, at the end of the econometrics electives (applied and forecasting), I have taken the students out for 'treats' (snacks and maybe an adult beverage) to acknowledge the effort required to do well in these courses. This is always fun--it gives me a chance to interact with students outside the classroom. I estimate there have been 40 'treats sessions' over the years (only COVID in 2020 prevented 'treats'). This year, Kristen McDonald (and some of her fellow students) organized a 'reverse treats' (Full Circle #4!)

I've tried (mostly succeeded?) in attending conferences where there is an ocean (Hawaii, in particular), a great city (Paris, San Francisco) or many great bars (New Orleans, Hilton Head, San Diego). One of my earliest presentations (in the late 1980s) was in Hawaii (Toward a Symbiotic Expert System For Econometrics @ The Hawaiian International Conference on System Sciences or HICSS) with Dan Dolk (my long-time colleague and friend from the University of Arizona days). In 1991, Dan and I (with Dave Castillo) were awarded a 'HICSS Best Paper' for a project regarding NASA costing and pricing. In 2020, we were scheduled to present another paper (again at HICSS) on interpretation and explainability in machine learning models. This would have been my 20th visit to Hawaii (mostly for conferences---though there was a renegade wedding and a couple of vacations in there). Alas, COVID prevented Full Circle #5. Maybe I will find a way to get back to Hawaii in my retirement---maybe for a HICSS so I can get a highly discounted conference-rate room!

At the picnic, with Marcela Manjarrez

Holiday Party with Mike Allison

History of UMSL Department of Economics by Herb Werner, 2008

The University started in 1960 as an Extension Center of the Normandy School District. Soon, with the help of local legislators, The University of Missouri took over the Center and the property, the former Bellerive Country Club (see left). The first class graduated in 1967. The economics department was formed in 1965 with Ingo Walter (Ph.D., New York University), international economics, William Mitchell (Ph.D., Duke), public finance, David Emery (Ph.D., Minnesota), price theory, and John Hand (Ph.D., MIT), macro theory. All taught 3-4 classes and various fields from 8 a.m. to 10 p.m. They shared offices in the club house and taught in Benton Hall. Students arrived 4000 one year and 8000 the next. *Parking was a problem.*

By 1972 new young assistant professors were added: Elizabeth Clayton (Ph.D., Washington), Soviet economy, Donald Phares (Ph.D., Syracuse), urban, Robert Sorensen (Ph.D., Virginia Tech), industrial organization, and Sharon Levin (Ph.D., Michigan), public finance. Along with Bill Mitchell, they all advanced to the rank of full professor and department chair. Elizabeth Clayton won the "triple crown" in economics as the first female professor hired, first female promoted and granted tenure, and first female to serve as department chair. This period was spent making adjustments, buying books, and setting curriculum. Senior professors were added: Joseph McKenna (Ph.D., Harvard) from Minnesota, Robert L. Allen (Ph.D., Harvard) from Oregon, Hugh O. Nourse (Ph.D., University of Chicago) from Illinois, and Thomas Ireland (Ph.D., Virginia) from Illinois State. Professors Nourse, Phares and Herbert Werner (Ph.D., California-Berkeley) were added for an urban emphasis. From 1967 to 1972 at least 13 buildings were completed or started. The University mission was changing, from extension to undergraduate, to limited graduated programs, to a special urban mission, to a full university.

By 1970 the department had become established and tenure standards had to be considered. Discussions centered around research, teaching, and service. After considerable discussion, research productivity was established as an absolute necessity to earn tenure. Teaching, however, was also ranked as highly important and remains so even to this day. Service was also to be given some credit. During this period the department also considered launching an urban Ph.D., then a general Ph.D., but ultimately rejected both. It was felt that the resources were not available to offer the kind of quality Ph.D. program the faculty desired. *Parking remained a problem.*

In the 1980s and early 1990s, many current faculty members arrived: David Rose (Ph.D., Virginia), Michael Allison (A.B.D., Virginia), Susan Feigenbaum (Ph.D. Wisconsin), Anne Winkler (Ph.D., Illinois), Clinton Greene (Ph.D., UC-Davis), and Donald Kridel (Ph.D., Arizona). In 2002, the University offered an attractive early retirement package, with many faculty seizing the opportunity: Levin, Mitchell, D. Phares, and Ireland, along with Sarapage McCorkle and Kathy Phares. Most recent faculty additions are Larry White (Ph.D., UCLA), Sel Dibooglu (Ph.D., Iowa State), Lea Kosnik (Ph.D., UCLA), William Rogers (Ph.D., Colorado State) and Brian Speicher (A.B.D., Washington University). *Today, parking remains a problem.*

Faculty News

For **Anne Winkler**, **Don Kridel**, **Mike Allison** see pages elsewhere in the newsletter.

Susan Feigenbaum finally retired from her second career as Administrator for Purpose Vision Institute and its affiliated entities. She continues to write editorials for local outlets and to informally teach economics to anyone who will listen, including plane seatmates! Susan would love to hear from her former students; you can contact her at her UMSL email address.

Max Gillman published with Adrian Pagan: "**Cycles and their important shocks: completing the investigation**," *Macroeconomic Dynamics*, Cambridge University Press, vol. 29, pages 1-1, January; with Emrah I. Cevik & Sel Dibooglu & Szilard Benk: 2025. "**Granger predictability of real oil prices by us money and inflation in Markov-switching regimes**," *Eurasian Economic Review*, Springer; Eurasia Business and Economics Society, vol. 15(1), pages 29-52, March. He is having fun working with Sel and his co-author Emrah, and has submitted a new paper with them: "US Money Supply and Interest Rate Predictability of Real Oil Prices with Asymmetric Time-Varying Granger Methods," to the *Journal of Economic Asymmetries*

(Scopus Q1). He has a second Revise and Resubmit currently under preparation for *Economic Modelling* for "Inflation, Capacity Utilization, and Endogenous Growth" with Tamas Csabafi, Szilard Benk, Laszlo Matyas, Mark N Harris and Mitchell Smith. And he has another under first review at *Economic Analysis and Policy* with Szilard Benk called "The effect of US monetary policy on the wealth of oil exporting nations."

Eiji Goto has remained active in his research, focusing on empirical macroeconomics. He presented his paper, "Data-Driven Learning about Trend Productivity Growth," at several conferences, including the Real-Time Data Conference at the Bank of Canada (his first time in Canada!). This academic year, he taught Time Series Econometrics, Principles of Macroeconomics, Intermediate Macroeconomics, and Graduate Macroeconomic Analysis. Last summer he also taught time series econometrics at Kobe University in Japan. This summer, he will work as a local organizer to host a Midwest Economics Research Group conference here at UMSL.

At age 83, **Tom Ireland** is traveling extensively and continues to publish papers in journals for forensic economics (economists who testify in court).

Bob Sorensen noted that a few months ago he celebrated his 80th birthday and is still feeling fine. He added that he had great memories of UMSL and especially those of the successes and achievements of students. Under current circumstances, he also fervently hoped that students remembered what they were taught about the theories of tariffs and tax incidence.

Brian Speicher and Sarah are enjoying life. Aidan has graduated from Mizzou with a degree in Economics and is working for the USGS in Columbia, MO. Anika finished her 3rd year at US Air Force Academy in Colorado Springs, CO. She has been accepted to med school at Texas A&M following her graduation and is spending the fall studying abroad in Germany. Asher is also at the Air Force Academy and has finished his first year. He is majoring in Computer and Electrical Engineering with a minor in Nuclear Physics. Telsa is entering 8th grade in the fall.

Fall Picnic 2024!

At Irv Zeid Park

April 2025 Spring Alumni Party at Fallon's!

Congratulations to Mike Moorhem, recipient of the Department of Economics Alumni Award! At every firm (Unyson, Hub Group, Tagg Logistics, Reliable Parts) Mike has reached out to UMSL Econ for interns. Thank you Mike!!

Also, former faculty member **Bob Sorensen** saluted the three soon-to-be retirees: **Mike Allison, Don Kridel, and Anne Winkler**. He pointed to their accomplishments over their **100+ years of combined service to UMSL Econ!**

Mike Moorhem with the "signature" UMSL Econ red cup, plaque, and book! Congrats!

Mike Allison, Mike Moorhem, Bob Sorensen & Don Kridel on Fallon's patio!

Bob Sorensen created and read the proclamations for each retiring faculty member (Winkler absent, but proclamation shown) and gave UMSL mug mementos. Thank you Bob !

MORE ON NEXT PAGE !

Alumni Party Photos continued!

**Mike Cassidy, Yvetta Fortova,
Mike Allison, Josh Ulrich**

Bob Sorensen**

**Joel Fecke, Rob Hall, John Granicke, Caleb Babione,
Dat Le, Rick Schmidt's daughter**

**Rachel Wilbanks, Senita Chambly, Dat Le, John Granicke, Kristen McDonald,
Mike Moorhem, Imogen Bennett.**

Mike Moorhem hired both Kristen and John as interns (and **Julian Barnes**, not in attendance) at his current job at Reliable Parts!

UMSL ECON ALUMNI GIVING

Due to ongoing campus policies, we are not allowed access to the names of those who have donated to the department, but we truly appreciate all those who have been so generous.

THANK YOU FOR YOUR GENEROUS DONATIONS!

GIVING OPPORTUNITIES

Economics (Unrestricted)

Economics Alumni Scholarship

Elizabeth M. Clayton Memorial Scholarship

Robert Loring Allen Memorial Scholarship

Robert Sorensen Scholarship

Sharon G. Levin Economics Scholarship

Sharon G. Levin ERC Support Fund

Manjarrez Hawn and Centene Charitable
Foundation Scholarship in Economics

Sangdow Tuly Scholarship in Economics

How to give:

You can give online: go to: **giving.umsi.edu**

Or, if you prefer, you can donate by mail. Please make your check payable to the UMSL Department of Economics, c/o Lea Kosnik, 500 Clark Hall, One University Blvd, St Louis, MO 63121.

Be sure to designate a specific fund.

Gifts made to the Economics Department may be tax deductible.

For details on each scholarship , click on the following link:

[UMSL ECON SCHOLARSHIP](#)

(Or go directly to our web page and look under CURRENT STUDENTS)

Your gifts make a real difference.

Alumni—especially economics graduates—want to know that their gifts to their alma mater are well spent. Your giving to the Department of Economics is used to fund scholarships, award prizes for essay competitions, employ and train students as teaching and research assistants, and to host events to bring together students, faculty, and alumni for networking. We'd like to thank those of you who have been giving so generously over the years. For those of you who have never considered making a gift to the Department, we hope you will consider doing so in the future. With your help we can do even more for our students.

Thank you to the many alums who have provided internships and job opportunities!
UMSL Economics is here to help you NETWORK.
