DNP Program Director
Position Description

Overview
To teach in the College of Nursing in areas of expertise, provide service to the College, University, community, and profession, contribute to the mission and strategic priorities of the College of Nursing and manage and oversee all operations of the DNP program.

Responsibilities

- Teach nursing courses as assigned including supervision of doctoral projects.
- Manage the instructional activities and support faculty, staff, and students in the delivery of the DNP program.
- Collaborate with the associate dean and other program directors in program evaluation and accreditation activities.
- Maintain current knowledge of accreditation standards and current trends in nursing education, practice and research.
- Participate in recruitment, selection, orientation and evaluation of full-time and part-time/adjunct faculty and staff.
- Collaborate with the associate dean and other program directors in preparing proposals and reports for internal and external constituents.
- Work with the associate dean, academic support services in the College, and those within the University to ensure recruitment of excellent students, retention of students, and high graduation and certification rates.
- Participate in securing external funding to support activities of the DNP program and its students.
- Participate in the ongoing development, implementation, evaluation, and enhancement of nursing academic programs.
- Participate in College of Nursing and University committees and community and professional activities as appropriate.
- Contribute to the mission and strategic priorities of the College of Nursing and the University of Missouri-St. Louis.
- Collaborate with other faculty and staff members both within the College of Nursing and throughout the University and community to develop interprofessional academic, clinical, and research opportunities.
- Engage in a program of scholarship.
