				Venture Capital and Private Eq This course examines venture capital and private equity firms as an important category of financial institutions. These entities play a major role in providing capital to startup companies in growth industries and to medium-sized entities (e.g., family businesses) that are in the process of restructuring. The main focus of the course is on financial, economic, and legal issues that develop between venture capital firms and their limited partners and between private equity entities and the startup companies in which they invest. More specifically, the course will explore the following processes: (1) how private equity and venture capital firms raise capital; (2) how they deal with entrepreneurial companies in which they invest; and (3) how they exit investments. Before discussing the main issues of the course, and as a way of introducing the subject, we begin with a brief discussion of the significance of venture capital funding in the technology transfer process and a simple example of venture capital funding from the perspective of an entrepreneur. As most new technologies are proprietaries, the course also discusses technology development process including protection through patents before they are licensed or used to establish as startup companies. This is a Seminar in Venture Capital and Private Equity. Prerequisite is Fin 3500. Same as FINANCE 3598 Additional Fee - Graduate Supplemental Business Fee applies. Location: Finland
 Tentative Course schedule:
 11/18/17 Student Arrival in Seinajoki, Finland.
 11/19/17 – 11/25/17 Course work, company visits,
 social events in Seinajoki, Finland.
 11/26/17 Student departure from Seinajoki, Finland
 This course is part of a three-university
 partnership. UMSL, the School of Applied Sciences
 in Aschaffenburg, Germany and the School of
 Applied Sciences in Seinajoki, Finland have
 created this unique graduate offering. Students
 and faculty from all three universities will
 gather to explore global business services and
 technology trends. This is a wonderfully intense,
 fascinating and global course with a focus on
 international management and international
 marketing in a Finnish context.

In addition to UMSL graduate tuition, there is a
 program fee. The program fee for 2017 has not
 been determined. But is likely to be similar to
 the last IMBAi in Finland. The program fee was
 \$400 (covered most meals, social events, and
 company visits). Lodging in Finland cost \$35 a
 night for triple occupancy or \$100 a night for
 single occupancy and is not covered in the program
 fee. Students are also responsible for airfare,
 which will vary by student.

 at Rottman@umsl.edu or 314-516-6286.

Location: Finland
 Tentative Course schedule:
 11/18/17 Student Arrival in Seinajoki, Finland.
 11/19/17 – 11/25/17 Course work, company visits,
 social events in Seinajoki, Finland.
 11/26/17 Student departure from Seinajoki, Finland
 This course is part of a three-university
 partnership. UMSL, the School of Applied Sciences
 in Aschaffenburg, Germany and the School of
 Applied Sciences in Seinajoki, Finland have
 created this unique graduate offering. Students
 and faculty from all three universities will
 gather to explore global business services and
 technology trends. This is a wonderfully intense,
 fascinating and global course with a focus on
 international management and international
 marketing in a Finnish context.

In addition to UMSL graduate tuition, there is a
 program fee. The program fee for 2017 has not
 been determined. But is likely to be similar to
 the last IMBAi in Finland. The program fee was
 \$400 (covered most meals, social events, and
 company visits). Lodging in Finland cost \$35 a
 night for triple occupancy or \$100 a night for
 single occupancy and is not covered in the program
 fee. Students are also responsible for airfare,
 which will vary by student.
