Peer tutors (no appointment needed) are available free of charge for help with studying, assignments, and test preparation. Tutoring is provided both by peer tutors within the Department of Psychological Sciences and also through the UMSL University Tutoring Center (UTC). Some of these opportunities are online via Zoom, and others are in person at the UMSL UTC (MSC Room 225). You can use this time to get started on an assignment, study for a test, when you have specific questions, and for moral support as you get started on an assignment. Have your course materials with you (e.g., textbooks, class notes, instructions). If the tutor is working with another student at the time you drop in, you may be asked to wait for no longer than 15 minutes prior to starting.
