

Colleagues & friends,

In what i can assure you is the only time i will send you a picture of me, this email is to promote the triton VIP program, an initiative designed to incentivize vaccination and voluntary sharing of vaccination information. If you haven't yet gotten the jab, by all means, get thee to a pharmacy and then upload your card. If you have long been vaccinated, you still can upload your card to the VIP interface and be eligible for the regular drawings for a \$500 gift card. I'm delighted to report i was among the first batch of winners, and as such i agreed to be part of the promo campaign.

While a responsible version of myself would use it to pay for my knee surgery, i think instead i'll do some online shoe shopping. upload your card and you too could be frivolous and carefree, if only for a bit.

Cheers,  
Dr. Lara Kelland
